COLLECTION

**BY THE SEA**

[SNORKELING EQUIPMENT] [BEACH ACCESSORIES]

EN

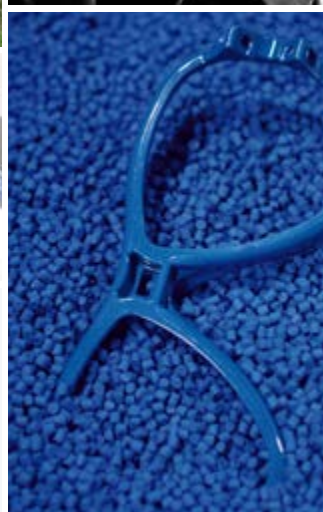

Cressi was founded, and still lives, just steps from the sea in **Genoa**. We breathe sea air in everything we do, and every one of our products is inspired by the incredible beauty of the waters we see before us.

The only way to fight pollution in the sea is to be aware and active, first hand.

## Cressi decided to take some concrete actions

01

CRESSI HEADQUARTERS IN GENOA SUPPLIED BY LIFE GATE ENERGY

Cressi is proud to announce that its Genoa factory is operating with 100% renewable energy. Alternative and renewable energy sources are crucial for the environmental health of the world's seas and for our future. The only way to fight ocean pollution and to conserve the beauty and health of the planet's oceans is to be aware and proactive. At Cressi, we decided to take action: 100% of the energy used in our Genoa factory is clean and completely green, supplied by LifeGate Energy.

## 02

## CRESSI PACKAGING

We live by the sea, we work with the sea and we love the sea, so it's our responsibility to take care and respect. Our goal is to replace all plastic packaging with alternative sustainable solutions following our policy.

“ In Cressi we have always focused on sustainability by orienting ourselves to the protection of the environment and especially of our seas. In 2019 our Headquarters has changed to Life Gate: Production and Offices are powered by renewable energy and today we can proudly say that our establishment is zero impact. We follow the sustainable direction on many fronts, such as in the choice of packaging materials, where we are reducing plastic and replacing it with recycled or recyclable materials. We are also very active in sponsoring events related to cleaning up the seas to ensure that future generations have our same opportunities.”

**Marco Cressi**

# WE ARE FAMILY

1930

**1938**  
Brothers Egidio and Nanni Cressi start to handcraft the first masks and spearfishing guns. These are the origins of Cressi, the oldest scuba diving equipment company worldwide.

**1943**  
The first Cressi mask, The Sirena, was hand crafted in 1943. It remained in the catalogue, with various updates, for more than 30 years.

**1946**  
The Cressi company is officially founded in Genova, Italy.

**1947**  
In 1947 the first oxygen rebreather was produced; Aro AR47. It was already highly advanced and fitted with sophisticated technical solutions, like the condensation receptacle.

Pinocchio

1950

**1952**  
**Pinocchio Mask, which makes equalization possible. It is a major innovation in the early '50s. It is the most famous and most sold mask in the world's history, and it is still included in the catalogue.**

**1953**  
**Rondine Fins - Also in the field of fins, Cressi invented the model that has inspired all other manufacturers, the first floating model in the world.**

**1957**  
Cressi athlete Mario Catalani wins the first spearfishing World championship and get the gold medal in Jugoslavia.

1960

**1965**  
Cressi opened one of the first workshops that specialized in producing optical masks. Thanks to Cressi, even people with visual defects could now get full enjoyment of the underwater universe.

**1970**  
**Equi-vest - In 1970, Cressi was the first manufacturer in the world to produce Equi-Vest, a futuristic jacket that became one with the scuba tank, supplied by a hose that drew air directly from the first stage. This was the first incarnation of the modern BC.**

**1970**  
**Rondine L long fins - The world leader of molding rubber fins, Cressi developed the Rondine L long fins, which enabled Jacques Mayol to go onto achieve his astonishing free ping records.**

**1979**  
**Fins range - Alongside the various rubber fin models, a futuristic model was presented with a reinforced nylon blade, called the Rondine Gara, a fin that thirty years down the line is still going strong, and has been adopted by world class free pers and spearfishermen the world over.**

**1980**

**1983**  
 Jacques Mayol, the first man in the world to challenge the 100m barrier. He reached a depth of 105 metres. The episode has gone down in history, the record was obtained in the waters of the island of Elba in 1983.

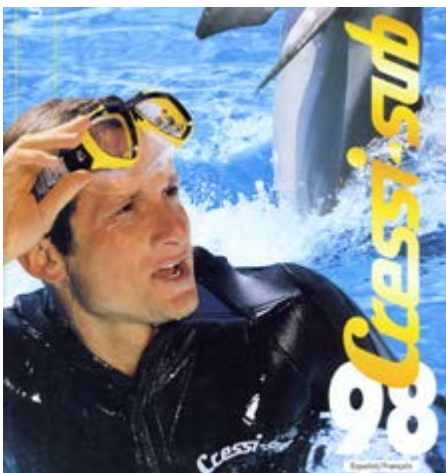

**1988**  
 Apache Arbalète - Cressi produced a complete range of Arbalète spearguns to join the pneumatic guns, called the Apache, which very soon became the Champion speargun in the world.

**1989**  
 Cressi athlete Renzo Mazzarri wins the spearfishing world title in Italy.

**1990**

**1990**  
 Cressi continues its international expansion and the products are by now distributed in over 90 countries world wide.

**1999**  
 Cressi Athlete Umberto Pelizzari sets the freeping "No Limits Absolute Variable Weight" World Record in Portofino (Italy) reaching the depth of 150 meters.

Big Eyes Evolution

**2000**

**2000**  
 Big Eyes was the first mask in the world with raked lenses in an upside-down teardrop shape, an innovative form that gives the per a complete view of all the equipment worn. They became the most widely copied and imitated mask in the world, a gratifying appreciation of how far ahead Cressi is in the design of its products.

Leonardo

**2010**

**2011**  
 The Leonardo dive computer watch is introduced, the first of the products designed in-house by Cressi Elettronica in order to guarantee optimum quality, safety and reliability.

**2013**  
 The French freediving champion Guillaume Néry becomes a Cressi product endorser. The Giotto dive computer watch is introduced; it processes the data from repeat multi-day dives and dives with gas mixtures and also benefits from the Cressi RGBM algorithm. The Tracina wetsuit for spearfishing is introduced in a new and exclusive camouflage Dark Digital Specter Pat Cressi.

**2020**

**2021**  
 Hydrosports is the result of Cressi's experience, consisting of tradition, innovation and quality, since 1946. With its close relationship to the sea environment, the Cressi team has been able to develop this new collection in response to the direct needs it encountered in practice and through water tests on its products.

**TODAY**

The Cressi company is still entirely owned by the Cressi family, which carries on with the same passion, the work started by brothers Nanni and Egidio Cressi. Its spirit lies in the manufacturing tradition, with a clear preference for the conception and realisation of its products in-house, from the initial design through to the smallest details. Cressi focuses on those who love all facets of the aquatic world. The company has never exaggerated with successful products on the market, but has instead always invested in research and development to the benefit of quality and reliability, the evolution of materials.

**OUR NUMBERS**

- 75 YEARS OF EXPERIENCE**

- 11 TIME SPEARFISHING WORLD CHAMPION**
- 7.000 REFERENCES**
- UNIQUE STYLE**

## LIGURIA. OUR LAND, OUR SEA

It was to fish in the depths of Portofino and San Fruttuoso that, just before the Second World War, a group of friends thought of new equipments. Situated between the French border and Tuscany, Liguria is one of the smallest regions in Italy. The Italian riviera is reflected in the blue Mediterranean Sea, but is also surrounded by mountains that drop sheer into the sea. Vegetation forms the backdrop to some of the country's most popular and well-known seaside resorts.

The coasts are generally high, rocky, jagged, especially in the Riviera di Levante, while in the Ponente there is an almost perfect alternation between sheer cliffs and sandy beaches.

**It couldn't be any other way, the strong passion for the sea finds its place in a unique setting with depths to explore.**

**"THE SEA IN LIGURIA, ESPECIALLY AROUND THE PORTOFINO PROMONTORY, IS EXTRAORDINARILY BEAUTIFUL AND, WHAT'S MORE, ACCESSIBLE WITHOUT TOO MANY PROBLEMS. THIS HAS PLAYED AN IMPORTANT ROLE IN THE BIRTH AND GROWTH OF A DIVING EQUIPMENT CENTRE IN THESE PARTS."**

Antonio Cressi

## " I'M PROUD TO STILL MANUFACTURE IN ITALY OUR MOST STRATEGIC PRODUCTS."

ANTONIO CRESSI

### THE CRESSI HEADQUARTERS

In 1989, the company was enlarged, moving it to Via Adamoli, along the Bisagno valley in Genoa. And then came the electronics department. Since 2008 we have created a research and development department for this sector and so we produce directly the many control instruments that are now used during diving. With 150 employees and four foreign

subsidiaries, Cressi is now the second brand on the Italian market and the fourth on the world market, with exports accounting for 80% of turnover.

**BUT THE ONLY ONE STILL RUN BY A FAMILY**

# WHERE WE ARE

WORLDWIDE

Our headquarters is based in Genoa, and we also have seven branches: USA, Mexico, Brazil, France, Spain, China and Thailand. Part of our production is in Hungary, as well as in Italy. We also have several trusted and selected suppliers in different countries in Asia. We have around 10,000 shops all over the world, and our products are sold in over 100 countries.

## CRESSI BY THE SEA 2022 COLLECTION

The By the Sea collection comes from Cressi: tradition, innovation and quality. We are a family owned company that creates premium water sports products for people that love the water and the sea. Our goal is to create the highest quality products, and our family's name is molded into every product that we make. Today thanks to this collection we can bring the quality of Cressi in our everyday life.

# ENJOY YOUR WATER SPORTS

# EXPERIENCE

## TARAH SWEENEY

Photographer  
San Diego, California

Tarah describes herself as a simple person **with a lot of love and passion**. She lives the life day by day and takes deep breaths to remind herself to enjoy every moment. These people in the picture are her tribe and her world revolves around them. Photography is her passion and all this love started when her parents gave her an old Canon Rebel, since then she considers her cameras as an extension of herself, because they allow her to create what she sees and feels.

## ERICKA CARRERA

Environmental Journalist & Freediver  
Guayaquil, Ecuador

30-years old Environmental Journalist, Ericka Carrera has a double major in Marketing and PR from Griffith University, Australia. She spent over 8 years in the land of "down under", where she acquire a healthy lifestyle, **passion for clean eating and yoga**. Few years down the track, she returned to her home country, Ecuador. Reseting her life, she found purpose, rediscovered herself and she fell in love with apnea.

## THE BUCKET LIST FAMILY

Family Travel Journalists  
Worldwide

The Gee family, just a typical family working from all over the world as Family Travel Journalists! Their story began on August 15, 2015, when they decided to sell everything and leave home for a trip around the world together. They started an Instagram and YouTube channel called, The Bucket List Family. It was a difficult decision to reset their lives and sell everything, but they are thankful every day that they took that chance and were brave. They hope that their **little family and this big adventure** continues to grow!

## CRAIG PARRY

Oceanic and nature Photographer  
Northern NSW, Australia

Craig Parry is an award-winning ocean and nature photographer. Growing up in Byron Bay, it was his parents' gift of a water-proof camera at the age of five that set him on the path to his passion. Today his fine art photography offers a unique insight into the world around us.

**Portraying the obvious as abstract.** Craig's images are both engaging and beautiful. His work regularly sees him travel to all corners of the world in search of new adventures and unique encounters, and he can often be found working with the likes of National Geographic, Discovery Channel and Travel Channel.

# MANTA

## 100m WATERPROOF WATCH

Cressi Manta is a professional dive watch, resistant to 100m/10 ATM. Its rugged, sporty look reflects its technical characteristics. It features a broad face that shows the hours in fluorescent paint. The mineral glass is encircled by the rotating

time-keeper bezel with the fluorescent 0 point. The stainless steel case is 13 mm thick. Battery powered quartz movement, extra-flat bottom with screw closure.

During a dive, if you position the bezel point at the minute of the dive, you can check the time sequence of decompressions and the dive time available as dictated by the air in the cylinders. Counter-clockwise micro-increments of one minute.

The Cressi Manta case is made of rugged stainless steel and is 13 mm thick. The bottom is ultra-flat, and is also steel. The screw closure is hermetic. Colours may vary according to model.

The ample clock face with the hours in fluorescent paint is topped with a solid, unidirectional time-keeper bezel that can also be calibrated when wearing gloves. Fluorescence proves essential in the darkness of deep dives.

# SUNGLASSES

# BLAZE

## HYDROFOBIC POLARIZED LENSES

Cressi BLAZE sunglasses were created to protect your vision around the water. The Cressi BLAZE solar filters protect 100% against UV rays, block reflected light, and ensure sharp, high-contrast vision. The lenses are made using shatterproof

organic glass, an ideal material famous light weight and resistance to blows. The polarised filters further improve vision. The HTC treatment layer makes the lenses water-repellent and keeps them clean.

SATIN FINISHED

COLORED, MIRRORRED LENSES

10 PROTECTIVE LAYERS

HIGH-QUALITY ORGANIC GLASS LENSES

REPELS DIRT AND IS EASY TO CLEAN

COMFORTABLE AND DURABLE FRAME

**TECHNICAL FEATURES**

- Features**
- High-quality organic glass lenses
  - Polarising filters
  - Repels dirt and is easy to clean
  - HTC treatment
  - Comfortable and durable frame
  - Satin finished
  - Essential when boating and in the surf
  - Colored, mirrored lenses

- Lenses**
- Polycarbonate
  - Protective
  - Polarized
  - Antireflection

Thanks to the protective HTC (Hydrophobic Tech Coating) treatment, droplets of water slide from the surfaces, leaving them free of streaks and dirt. This protection makes the lenses more durable and long-lasting, for sharp and defined vision. The HTC layer helps the lens stay resistant to dirt, and makes it super smooth and easy to clean.

The polarizing filter in the Cressi sunglasses guarantees sharp vision free of reflections and glare. Cressi polarized sunglasses block harmful sunlight reflected from horizontal surfaces, such as water or a road surface, while allowing vertical light to reach the eye. Vertical light is important for human eyes and improves vision.

Cressi sunglasses have superior optical quality; they block reflections and protect against UV rays. They offer sharp vision that is rich in detail and increases contrast, protecting the eyes from harmful rays. This combination improves comfort and decreases eye fatigue.

# NINJA FLOATING

## FLOATING POLARIZED SUNGLASSES

100% UV PROTECTION

HIGH-QUALITY SHATTERPROOF

POLARIZED FILTER 3 CATEGORY

SOFT RUBBER COATING

Ninja sunglasses are just perfect for those practising sports in general, and especially for those who enjoy fishing, jet skiing, windsurfing and sailing. This special floating version confirms that their ideal use is in water sports. The solar filters in the lenses offer 100% protection from UV rays, block luminous reflections and glare, ensuring crystal clear vision and good contrast.

Thanks to the WRH treatment that makes them water-repellent and hydrophobic, the lenses remain clean at all times, yet another feature that makes these glasses indispensable when boating or sailing. The antireflection treatment also comes in handy when driving, in that it drastically reduces reflection from the road surface and improves vision.

# NINJA

## POLARIZED SUNGLASSES

Ninja sunglasses have been specially designed by CRESSI to protect your eyesight in the proximity of water. Cressi Ninja solar filters ensure 100% protection from UV rays, block dazzling reflections and glare, making for ultra clear, well-contrasted vision. Thanks to the WRH treatment that makes them water-repellent and hydrophobic, the lenses remain clean at all times, yet another feature that

makes these glasses indispensable when boating or sailing. The antireflection treatment also comes in handy when driving, in that it drastically reduces reflection from the asphalt and improves vision. Highly appreciated in the traditional version with black temples, they are now proposed in a mimetic version, renewing the success that made them famous.

### TECHNICAL FEATURES

- Eminently suitable for outdoor use and leisure time activities
- Polarised, antireflection lenses for maximum UV ray protection
- Protect your eyesight from solar radiation, filtering out reflections and making for better vision
- Available with filters in a choice of colours

**WRH** Thanks to the protective WRH Water Repellant Hydrophobic treatment of Cressi lenses, the water droplets quickly slip away from the surface, freeing the vision from halos and dirt. This protection prolongs resistance and durability by providing clear and defined images. All layers of WRH make the lens resistant to dirt and wear for a smooth and easy to clean.

**Filters** The polarising filter present in the lenses of Cressi sunglasses, allows a clear vision, without reflections or any glare. The Cressi polarised sunglasses block the harmful horizontal light such as the reflections from a water or road surface, while allowing vertical light to reach the eye. Vertical light is important for the human eye and improves vision.

**Comfort** Cressi sunglasses have superior optical quality, they block reflections and protect up to 100% from UV rays. They offer a clear vision, rich in details and increase the contrast of vision, protecting the eyes from harmful rays. This combination increases comfort and decreases eye strain.

# VENTO

## POLARIZED SUNGLASSES

With their lightweight, streamlined shape, Cressi Vento glasses are the ideal choice for a dynamic lifestyle. If you enjoy riding a trekking bike, skating under the sun, exploring the world on foot and moving fast, these glasses are made for you. Comfortable and wraparound, they adhere perfectly to the face. The curved temples covered with a soft elastomer ensure optimal comfort behind the ears. The nose pads are soft on the nose, and the sporty design of the frame

is enhanced by the slots in the upper edges of the frame, which promote the exchange of air and prevent misting. The antireflection treatment is highly appreciated when driving, in that it drastically reduces reflection from the road and completely neutralise the UV rays, making for improved vision. Thanks to their design, these glasses can be put on and taken off with ease, with and without a helmet.

# PORTOFINO

## FLIP-FLOP

As the name suggests, Portofino is a popular, well known and fashionable village of the Ligurian Coast (Riviera). It rises in a sheltered bay in the Gulf of Tigullio, where the untouched nature is combined

with this simple fishing village and its alleys with colorful narrow houses, one built over the other. These flip-flops are the expression of a similar quite elegance.

LIGHTWEIGHT | SOFT FABRIC | QUICK DRYING

### TECHNICAL FEATURES

- The strap material is very comfortable even between the toes: it doesn't rub or scrape, as it is made of soft fabric
- Multilayered, ergonomic footbed, with a deepened stamped antislip inscription
- Very comfortable flip-flops for adults. Really functional shoes for wet, uneven ground and sand
- Very light, therefore ideal for sports and travel luggage
- Quick-drying and washable material
- Classic and casual flip-flops, ideal for beach and pool
- Very robust and soft antislip sole
