CRESSI

CARES

Cressi was founded, and still lives, just steps from the sea in **Genoa**. We breathe sea air in everything we do, and every one of our products is inspired by the incredible beauty of the waters we see before us.

The only way to fight pollution in the sea is to be aware and active, first hand.

Cressi decided to take some concrete actions

01

CRESSI HEADQUARTERS IN GENOA SUPPLIED BY LIFE GATE ENERGY

Cressi is proud to announce that its Genoa factory is operating with 100% renewable energy. Alternative and renewable energy sources are crucial for the environmental health of the world's seas and for our future. The only way to fight ocean pollution and to conserve the beauty and health of the planet's oceans is to be aware and proactive. At Cressi, we decided to take action: 100% of the energy used in our Genoa factory is clean and completely green, supplied by LifeGate Energy.

02

CRESSI PACKAGING

We live by the sea, we work with the sea and we love the sea, so it's our responsibility to take care and respect. Our goal is to replace all plastic packaging with alternative sustainable solutions following our policy.

“ In Cressi we have always focused on sustainability by orienting ourselves to the protection of the environment and especially of our seas. In 2019 our Headquarters has changed to Life Gate: Production and Offices are powered by renewable energy and today we can proudly say that our establishment is zero impact. We follow the sustainable direction on many fronts, such as in the choice of packaging materials, where we are reducing plastic and replacing it with recycled or recyclable materials. We are also very active in sponsoring events related to cleaning up the seas to ensure that future generations have our same opportunities.”

Marco Cressi

WE ARE FAMILY

1930

1938
Brothers Egidio and Nanni Cressi start to handcraft the first masks and spearfishing guns. These are the origins of Cressi, the oldest scuba diving equipment company worldwide.

1943
The first Cressi mask, The Sirena, was hand crafted in 1943. It remained in the catalogue, with various updates, for more than 30 years.

1946
The Cressi company is officially founded in Genova, Italy.

1947
In 1947 the first oxygen rebreather was produced; Aro AR47. It was already highly advanced and fitted with sophisticated technical solutions, like the condensation receptacle.

Pinocchio

1950

1952
Pinocchio Mask, which makes equalization possible. It is a major innovation in the early '50s. It is the most famous and most sold mask in the world's history, and it is still included in the catalogue.

1953
Rondine Fins - Also in the field of fins, Cressi invented the model that has inspired all other manufacturers, the first floating model in the world.

1957
Cressi athlete Mario Catalani wins the first spearfishing World championship and get the gold medal in Jugoslavia.

1960

1965
Cressi opened one of the first workshops that specialized in producing optical masks. Thanks to Cressi, even people with visual defects could now get full enjoyment of the underwater universe.

1970

1970
Equi-vest - In 1970, Cressi was the first manufacturer in the world to produce Equi-Vest, a futuristic jacket that became one with the scuba tank, supplied by a hose that drew air directly from the first stage. This was the first incarnation of the modern BC.

1970
Rondine L long fins - The world leader of molding rubber fins, Cressi developed the Rondine L long fins, which enabled Jacques Mayol to go onto achieve his astonishing free ping records.

1979
Fins range - Alongside the various rubber fin models, a futuristic model was presented with a reinforced nylon blade, called the Rondine Gara, a fin that thirty years down the line is still going strong, and has been adopted by world class free pers and spearfishermen the world over.

1980

1983
 Jacques Mayol, the first man in the world to challenge the 100m barrier. He reached a depth of 105 metres. The episode has gone down in history, the record was obtained in the waters of the island of Elba in 1983.

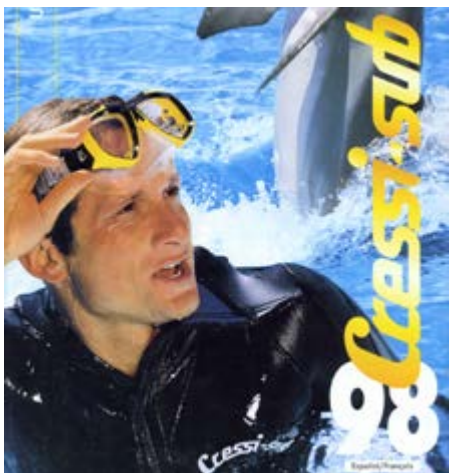

1988
 Apache Arbalète - Cressi produced a complete range of Arbalète spearguns to join the pneumatic guns, called the Apache, which very soon became the Champion speargun in the world.

1989
 Cressi athlete Renzo Mazzarri wins the spearfishing world title in Italy.

1990

1990
 Cressi continues its international expansion and the products are by now distributed in over 90 countries world wide.

1999
 Cressi Athlete Umberto Pelizzari sets the freeping "No Limits Absolute Variable Weight" World Record in Portofino (Italy) reaching the depth of 150 meters.

Big Eyes Evolution

2000

2000
 Big Eyes was the first mask in the world with raked lenses in an upside-down teardrop shape, an innovative form that gives the per a complete view of all the equipment worn. They became the most widely copied and imitated mask in the world, a gratifying appreciation of how far ahead Cressi is in the design of its products.

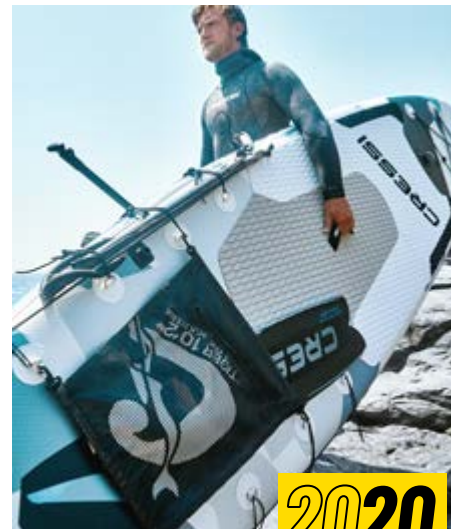

Leonardo

2010

2011
 The Leonardo dive computer watch is introduced, the first of the products designed in-house by Cressi Elettronica in order to guarantee optimum quality, safety and reliability.

2013
 The French freediving champion Guillaume Néry becomes a Cressi product endorser. The Giotto dive computer watch is introduced; it processes the data from repeat multi-day dives and dives with gas mixtures and also benefits from the Cressi RGBM algorithm. The Tracina wetsuit for spearfishing is introduced in a new and exclusive camouflage Dark Digital Specter Pat Cressi.

2020

2021
 Hydrosports is the result of Cressi's experience, consisting of tradition, innovation and quality, since 1946. With its close relationship to the sea environment, the Cressi team has been able to develop this new collection in response to the direct needs it encountered in practice and through water tests on its products.

TODAY

The Cressi company is still entirely owned by the Cressi family, which carries on with the same passion, the work started by brothers Nanni and Egidio Cressi. Its spirit lies in the manufacturing tradition, with a clear preference for the conception and realisation of its products in-house, from the initial design through to the smallest details. Cressi focuses on those who love all facets of the aquatic world. The company has never exaggerated with successful products on the market, but has instead always invested in research and development to the benefit of quality and reliability, the evolution of materials.

OUR NUMBERS

- 75 YEARS OF EXPERIENCE

- 7.000 REFERENCES
- UNIQUE STYLE

LIGURIA. OUR LAND, OUR SEA

It was to fish in the depths of Portofino and San Fruttuoso that, just before the Second World War, a group of friends thought of new equipments. Situated between the French border and Tuscany, Liguria is one of the smallest regions in Italy. The Italian riviera is reflected in the blue Mediterranean Sea, but is also surrounded by mountains that drop sheer into the sea. Vegetation forms the backdrop to some of the country's most popular and well-known seaside resorts.

The coasts are generally high, rocky, jagged, especially in the Riviera di Levante, while in the Ponente there is an almost perfect alternation between sheer cliffs and sandy beaches.

It couldn't be any other way, the strong passion for the sea finds its place in a unique setting with depths to explore.

"THE SEA IN LIGURIA, ESPECIALLY AROUND THE PORTOFINO PROMONTORY, IS EXTRAORDINARILY BEAUTIFUL AND, WHAT'S MORE, ACCESSIBLE WITHOUT TOO MANY PROBLEMS. THIS HAS PLAYED AN IMPORTANT ROLE IN THE BIRTH AND GROWTH OF A DIVING EQUIPMENT CENTRE IN THESE PARTS."

Antonio Cressi

" I'M PROUD TO STILL MANUFACTURE IN ITALY OUR MOST STRATEGIC PRODUCTS."

ANTONIO CRESSI

THE CRESSI HEADQUARTERS

In 1989, the company was enlarged, moving it to Via Adamoli, along the Bisagno valley in Genoa. And then came the electronics department. Since 2008 we have created a research and development department for this sector and so we produce directly the many control instruments that are now used during diving. With 150 employees and four foreign

subsidiaries, Cressi is now the second brand on the Italian market and the fourth on the world market, with exports accounting for 80% of turnover.

BUT THE ONLY ONE STILL RUN BY A FAMILY

WHERE WE ARE

WORLDWIDE

Our headquarters is based in Genoa, and we also have seven branches: USA, Mexico, Brazil, France, Spain, China and Thailand. Part of our production is in Hungary, as well as in Italy. We also have several trusted and selected suppliers in different countries in Asia. We have around 10,000 shops all over the world, and our products are sold in over 100 countries.

CRESSI HYDROSPORTS 2022 COLLECTION

Hydrosports is the result of Cressi's experience, consisting of tradition, innovation and quality, since 1946. Today, with this new line of products, Cressi seeks to bring its passion above the surface of the sea too. With its close relationship to this environment, the Cressi team has been able to develop this new collection in response to the direct needs it encountered in practice and through water tests on its products:

Can you go on holiday with a lightweight SUP?

Is it possible to combine a session at sea with a passion for freediving or fishing?

Wouldn't it be nice to admire the sea bed from the SUP?

Is it possible to achieve high performance on an inflatable SUP?

Cressi Hydrosport aims to answer these and other questions with this catalog: a guide designed to help you choose the best equipment for your needs.

Start exploring with Cressi Hydrosports.

START EXPLORING THE HORIZON

LUCA TIXI

**Professional Kayak & SUP instructor
Portofino, Italy**

I was born and raised in Recco, at the gates of the Portofino Park (Liguria). I remember spending my childhood among the trails of the park and the coasts of its marine reserve: the most spectacular playground that a kid can desire! At the time of high school, in a period of environmental militancy and hermitage on the Portofino mountain, the enlightenment arrives: I understand that my job will be to bring people into nature! At the age of 17 I became a kayak instructor and after graduating in Marine Environmental Sciences at the University of Genoa, I founded Outdoor Portofino.

 [outdoorportofino](#)

OU

LUCA DELLA SANTA

**Professional Paddle Board Instructor
Fort Lauderdale, FL**

I was raised on the beaches of North Carolina and South Florida, where my love for the ocean began. Growing up, I was fishing, diving, or surfing any chance I could get. With my love for the ocean and wanting to experience it in different ways, I convinced my parents to get me my first paddle board at age 13 and was immediately hooked. Years later, I became a paddle board instructor in college and began to teach lessons and take customers on paddle board tours. Since then, I have continued to use my knowledge, skills, and passion for the sport to help teach and grow the paddle boarding industry in the best way possible.

 [erickacarrera](#)

SABRINA GIORDANO

Professional YOGA SUP instructor
Genova, Italy

Sabrina is a young and passionate Yoga teacher, she loves to explore movements of the body in new positions and dimensions. On SUP board she discovered a new approach, where the focus becomes the balance between physical and mental status, breathing between water and sky.

IGOR D'INDIA

Adventure Filmmaker
Milano, Italy

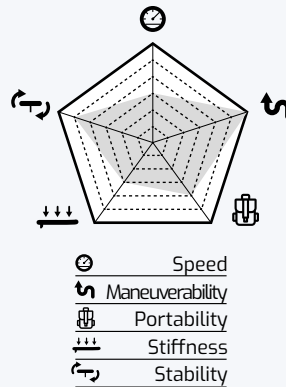

Igor has been able to combine his passion for outdoor adventure and marine conservation with his training in underwater filmmaking, camera drone pilot operation and advanced open water diving to document the stories of extreme sports athletes and outdoor brands. He is deeply committed to participating in the global community of conservationists who are fighting to protect the ocean.

ISUP CATALOG A COMPARING TOOL

The Cressi Hydrosports catalog is design to describe as best as possible each boards features, such as materials, construction, ability scores and box/set contents. This catalog collects all the informations to let you find the best suitable products to your need in order to having the best experiences on water.

Abilities chart
On this graph you can quickly see the ability scores of each Cressi Hydrosports SUP boards.

Packaging
Packaging picture and box content list

Comparison table
At the end of the ISUP section you can find the comparison table between all the tables in the catalog. On this double page you can have an overview of the entire Cressi Hydrosports ISUP collection.

Human size comparison
Thanks to this visualization, you can immediately see the size of the SUP, compared to a human figure of 180 cm in height.

THE SHAPES OF THE COLLECTION

The shapes of the SUP Cressi Hydrosports 2022 are designed to combine aesthetics and functionality:

All Round: easy to handle and stable, ideal for all levels of experience and sea conditions.

Spear: highly hydrodynamic, it is suitable for the more experienced and for long paddling sessions.

Fish: very stable and voluminous, it is suitable as a base for alternative activities.

| | ALL ROUND | SPEAR | FISH |

ELEMENT

ALL ROUND ISUP SET

Minimalism and pure lines, combined with the quality of Cressi DWF technology, give rise to a classic, no-frills inflatable SUP for paddling purists. The All Round shape, with rounded nose and flat tail, provides great maneuverability and stability. The nose rocker (curved bow) improves buoyancy by preventing the tip of the board from plunging into choppy waters, making Element perfect for sea use. The large diamond-patterned pad offers a spacious walkable area and optimal grip, even when barefoot in the water.

Element is a ready-to-use set, easy to inflate (in under 10 minutes), carry and store thanks to the practical backpack supplied: a space-saving solution equipped with all the accessories you need to go stand-up paddleboarding with peace of mind. Available in different sizes, it's suitable for all levels of experience and build.

CRESSI
 HYDROSPORTS
Double Wall Fabric

Element boards are made with Cressi DWF (Double Wall Fabric) technology, an airtight multilayer (1) material whose internal fibers (2) give it a

perfectly flat and rigid surface once inflated. The double-layer rail (3) with variable thickness guarantees excellent performance during use but is easy to roll up, for a board that's durable and easy to use.

PURE PADDLING FOR ALL THE FAMILY

TRAVELIGHT

FOLDABLE 9'2" ISUP SET

Easy to transport, light and compact: Travelight is the Cressi Hydrosports SUP that's ideal for travelers. The special pad design of the SUP enables it to be folded longitudinally then rolled up, thereby occupying half the space of an inflatable SUP of the same size. Travelight is made with Cressi LWF technology, our lightest and strongest construction in the Inflatable category, which minimizes its weight without affecting

performance. The All Round shape makes the board highly versatile and manageable for different levels of experience and build. The set is complemented by similarly compact accessories designed ad hoc, including the small Feather pump and the MOD5 modular paddle, which lets you transport the entire set in the TERA backpack, only 50 cm tall.

REEF

WINDOW 10'2" ISUP SET

The full snorkeling experience from above the surface: a new perspective for encountering and observing the underwater environment with maximum respect. This is Reef, the new Cressi Window ISUP with the biggest window yet. The large 34" 'fish' shape coupled with the pre-laminated material have enabled us to design an

elongated window that extends from the paddling position to the bow, and thanks to the sturdy layer of Crystal Clear PVC, Reef's window offers an exceptional view of the seabed during your outing. The high buoyancy, curved bow and generous 9" drift give the board great stability, to let you comfortably admire the sea wherever you go.

CRESSI HYDROSPORTS

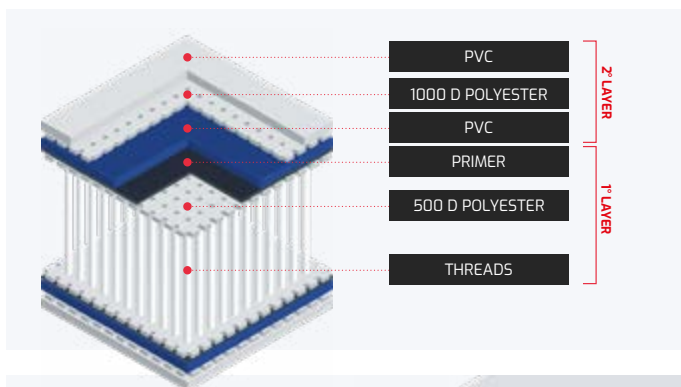

Window PLF

The largest window of ISUP category, designed thanks to Cressi's experience in developing boards with opened structure. Made with a thick layer of transparent PVC (1) with perimeter

reinforcement, designed to avoid deformations and structural deficits. Moreover, thanks to the pre-laminated (2) material, made without glue, and the double-layer rail (3), Reef offers the maximum viewing area and comfort while paddling.

FLUID

ALL ROUND 10'2" ISUP SET

Our most versatile, safe and performing board in all aquatic conditions and activities, suitable for learners as well as the most experienced, ideal for sea excursions in calm or choppy waters, through to yoga and fitness.

Thanks to Cressi Double Chamber PLF technology, this inflatable board also combines exceptional structural stiffness with the safety of a second integrated air chamber.

Stable and maneuverable thanks to its generous thickness (15 cm) and wide width (81 cm), Fluid is

the ideal SUP to ensure maximum fun at all times. Equipped with an 8" fin

to increase maneuverability, the classic All Round shape with a rounded and curved bow transmits a linear and gentle feeling of paddling.

The diamond-patterned pad always ensures a firm grip, even with bare feet in wet conditions.

Fluid is a set complete with all the accessories you need to practice, and thanks to the supplied pump it inflates in under 10 minutes.

JET NEW 2022

CRUISE 11'2" ISUP SET

Jet is the Cressi Hydrosports ISUP designed for cruising (medium and long time paddling activities). His "spear" shape combined to the 11'2" length gives to the board a great hydrodynamic performance keeping at the same time a good roll stability thanks to the 30" width and the US 9" fin supplied. The board profile has a nose rocker to improve

floating on the sea waves and ripples, avoiding the bow sinking. Jet is made with Cressi double chamber technology that guarantee floating in case of accidental punctures then a better maritime safety; the inner "core" chamber also gives at the board, a great stiffness that enhance paddling thrust.

TIGER SHARK

MULTITASK 10'2" ISUP SET

Can the pleasure of stand-up paddleboarding be combined with a passion for spearfishing and freediving?

Tiger Shark was born from this question and is designed to offer new possibilities for enjoying these activities.

The large and spacious 'fish' shape is ideal for providing stability onboard when preparing and setting up the equipment.

Thanks to Cressi Storage Hatch PLF technology, this board makes it easy to transport equipment, with a large and practical locker in the bow equipped with a cover mesh pocket for storing

items like ropes, fins or the catch itself.

The supplied adjustable strap with D-Ring can be passed under the board to connect the ascent line during diving and stored while paddling, so as not to affect hydrodynamic performance.

The bow is equipped with a base and shaft with a diving flag, while the D-Rings are equipped with adjustable elastic bands to attach spearguns and rods to the side hooks, so as not to take up space onboard and always offer a view of the equipment. The practical bungee elastic cords are positioned at the stern to provide an additional cargo area.

OUR MOST VERSATILE AND EQUIPPED SUP

FURY

TOURING 12'2" ISUP SET

Fury is the ISUP from Cressi Hydrosports dedicated to touring. The hydrodynamic and elongated shape, coupled with the very light Carbon paddle supplied, make this set the best one for lengthy paddleboarding sessions.

The curved bow (nose rocker) improves its buoyancy in the sea, preventing the tip from sinking into the ripples of the waves, while creating hydrodynamic resistance.

The Cressi Double Chamber PLF technology maintains a highly performing structural stiffness while paddling, despite the board's length of over 12 feet, and the double air chamber guarantees greater safety in case of accidental punctures. The large 9" drift positioned far from the center of gravity helps maintain a linear trajectory even at low speeds, providing an advantage over long distances.

Solid is the Cressi Hydrosports SUP family designed specifically for professional rental.

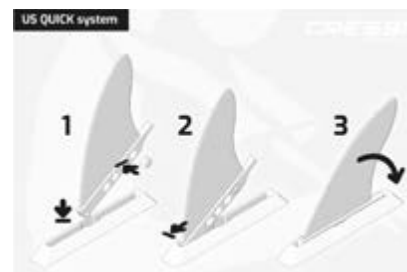

The use of Double Chamber Reinforced PLF technology and triple-layer anti-abrasion rail (the most resistant and robust composition in the whole collection) guarantee maximum structural stiffness and great safety during sessions at sea.

The board is available in the All Round version with one seat and Tandem with two seats. Due to their intended professional use, the two versions of Solid have features designed to improve the experience of both the boards' end users and those who rent them. Numerous D-rings and handles are positioned along Solid's structure to facilitate hooking and transport.

Furthermore, each side features special dedicated HIN (Hull Identification Number) spaces for customized numbering by the rental center.

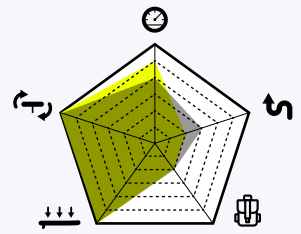

The US Click 9" fins supplied have a quick coupling and release system, with a variable-intensity locking system. Each board will be accompanied by a Trailer Leash, a reinforced elastic rope with double S-shape carabiner, useful for towing and mooring.

Solid is equipped with US Quick Skeg Fin 9" with fast locking system:

Solid has 5 practical handles to facilitate transport and storage:

- Speed
 - Maneuverability
 - Portability
 - Stiffness
 - Stability
- Solid 10'6"
 - Solid 12'2"

SOLID 10'6" SET INCLUDES:

- Solid ISUP 12'2" (x1)
- US Quick Skeg Fin 9" (x1)
- Trailer Leash 8' (x1)

SOLID 12'2" SET INCLUDES:

- Solid ISUP 12'2" (x1)
- US Quick Skeg Fin 9" (x2)
- Trailer Leash 8' (x1)

Thanks to the Trailer Leash supplied, it will be possible to easily and quickly connect the boards through the D-Rings positioned at the bow and stern, so as to be able to keep all the boards under control during each tours.

All Round ISUP for all sea conditions and activities, made with double chamber for maximum stiffness and safety.

ISUP with integrated locker, and laces for carrying equipment, the ideal board for spearfishing and freediving.

Cruise ISUP for mid and long time paddling activities at sea, double chamber for max. stiffness and safety.

Touring ISUP for long time sea tours, made with double chamber for maximum stiffness and safety.

All Round ISUP designed for rental activities, made with reinforced construction: great marine safety and product durability.

Tandem ISUP (double seat) designed for rental activities: reinforced construction to improve safety and product durability.

IKAYAKS

NAMAKA

IKAYAK SET

Namaka is the Cressi kayak created to explore the coasts and nature, to move silently and reach places inaccessible by sailing or swimming, with zero emissions and the utmost respect for the marine environment.

Available in two versions, single or double seat, Namaka is an inflatable kayak with excellent stability thanks to its air chambers with tubular sections, which are ideal for following the waves. Comfort is ensured by the inflatable seats that provide a raised paddling position, while the velcro strips and adjustable straps allow the lumbar support to be moved and adapted along the entire cockpit. Namaka is equipped with nylon linings at the bow and stern with splash guards, practical

- EASY TO INFLATE AND DEFLATE
- ADJUSTABLE SEAT POSITION
- REINFORCED BASE
- READY-TO-USE SET

bungee cords, handles to help carry it out of the water, a velcro oar holder and reinforced bottom with anti-abrasion layer.

Both models are ready-to-use sets, supplied with all the accessories needed for inflation and immediate use, from the pump to the paddles (two for the double and one for the single) up to the quick-hooking fins.

PVC REPAIRING GLUE

| | | |
|----------|--|--|
| CODE | | |
| NZ000400 | | |

DESCRIPTION:
Polyurethane adhesive for pvc patches, ideal for puncture repairing.

SUITABLE FOR:
All Cressi Hydrosports ISUP boards and IKayaks.

REPAIR KIT

| | | |
|----------|--|--|
| CODE | | |
| NY000000 | | |

DESCRIPTION:
Kit composed of PVC patches and HP valve wrench. ! GLUE NOT INCLUDED !

SUITABLE FOR:
All Cressi Hydrosports ISUP boards.

BUNGEE CORD

| | | |
|----------|--|--|
| CODE | | |
| NZ000500 | | |

DESCRIPTION:
White elastic bungee cord for isup cargo area, 3 meters length, 5 mm diameter.

SUITABLE FOR:
All Cressi Hydrosports ISUP boards.

DIVER DOWN FLAG

| | | |
|----------|--|--|
| CODE | | |
| NT611100 | | |

DESCRIPTION:
Diver down flag + removable flagpole

SUITABLE FOR:
Tiger Shark Multitask 10'2" ISUP.

HATCH COVER

| | | |
|----------|--|--|
| CODE | | |
| NZ003080 | | |

DESCRIPTION:
Hatch cover made of sturdy PVC fabric, equipped with mesh pocket and snap hooks for quick fastening at D-Rings.

SUITABLE FOR:
Tiger Shark Multitask 10'2" ISUP.

HP VALVE

| | | |
|----------|--|--|
| CODE | | |
| NZ000303 | | |

DESCRIPTION:
High pressure valve with PUSH-PUSH opening, equipped with ergonomic cap and protective mesh filter.

SUITABLE FOR:
All Cressi Hydrosports ISUP boards.

RQR VALVE

| | | |
|----------|--|--|
| CODE | | |
| NZ000301 | | |

DESCRIPTION:
Double stage RQR (rigid - quick release) valve for low-pressure kayaks; Easy inflation and no air leaks thanks to the large diameter first stage with seal valve, removable second stage for a rapid deflation.

SUITABLE FOR:
Namaka IKayaks

NAMAKA BOW COVER

| | | |
|----------|--|--|
| CODE | | |
| NZ002080 | | |

DESCRIPTION:
Bow and stern hood made of abrasion-resistant Nylon/TPU composite fabric, features a splash guard, carrying handle, and elastic bungee cords to fasten equipment.

SUITABLE FOR:
Namaka IKayaks

COMFY KAYAK SEAT

| | | |
|----------|--|--|
| CODE | | |
| NZ001075 | | |

DESCRIPTION:
Inflatable seat for Cressi kayaks, high paddling comfort thanks to the lumbar support with adjustable straps. Made with durable PVC Nylon covered.

SUITABLE FOR:
Namaka IKayaks

ACCESSORIES

PADDLES

SUP & KAYAK

Lightness, strength and versatility: these are the key values our collection of paddles seeks to offer. Our designs are created to meet the specific needs of those who go stand-up paddleboarding and kayaking, with a focus on inflatable products and portability.

For this reason, the choice of materials is directed only towards those with high levels of corrosion resistance, lightness, and elasticity such as aluminum, nylon and carbon fiber.

Behind the apparent simplicity hides great attention to detail, aimed at improving performance and usability.

Highlights include: the one-hand height adjustment mechanism, the floating capacity and an easy assembly system.

Finally, modularity is what unites all our paddles, to ensure easy transport and storage within the sets they are supplied in.

WELTER

2000 CC HAND PUMP

Welter is the largest capacity Cressi Hydrosports pump. With a volume of 2000 cc, it can inflate a 300 l board in under 10 minutes. The mechanical selector can be used to set the pump to double or single action, to reduce fatigue when inflating at high pressures.

Equipped with a deflation function, pressure gauge and multiple bayonet connections, it's compatible with all Cressi Hydrosports SUPs and kayaks. Its foldable pedestal and unscrewable handles make Welter compact and easy to store in a backpack.

WASHGUARD

SHIELD

RASHGUARD T-SHIRT

Cressi Shield Rash Guard are designed for all water sports. The composition of the fabric enables the clothes to dry very quickly and provide protection from harmful UV rays.

The elasticity of these rash guards and the flat seams offer complete comfort during movement, while maintaining excellent resistance to any abrasions caused by rubbing in the water.

SPIDY

DRY DECKPACK 25 LITERS

Spidy 25L Dry Deckpack born from the desire to create a waterproof backpack that can be comfortably carried on water during paddling activities. Spidy deckpack features adjustable straps with snap hooks, which can be hooked to the D-rings of each SUP boards from our collection.

The backpack is completely waterproof and can be opened and closed in two different ways: from the top side, thanks to the large opening with strap for watertight closure, or from the bottom by the practical dry zip that surrounds the backpack's

structure. The lower hinged opening is especially useful during paddling, when Spidy is fastened at the board, as it lets you easily access the inside of the deckpack without having to unroll the upper opening. The front of the backpack has a bungee rope to storage equipment, while the side has a utility pocket.

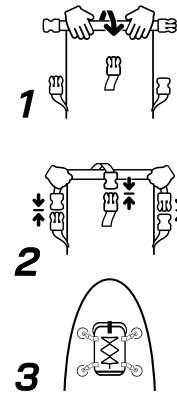

The back and the adjustable padded shoulder straps, combined with the chest strap, make the Spidy a practical, comfortable and roomy backpack, ideal for all water activities.

- DRY BACKPACK
- EASY ISUP ATTACHMENT
- ROLLTOP + DRY ZIP CLOSURES
- ADJUSTABLE STRAPS
