CRESSI

SINCE 1946

Diving, Snorkeling and Water Sports are not 3%, 5% or 10% of our business. They are 100% of our business. We are focused only on water related sports.

We have been doing this, in the bay of Portofino, since 1946 and this is **what makes Cressi different.**

WE ARE FAMILY

1930

CRESSI

1938

Brothers Egidio and Nanni Cressi start to handcraft the first masks and spearfishing guns. These are the origins of Cressi, the oldest scuba diving equipment company worldwide.

Aro AR47

1940

1943

The first Cressi mask, The Sirena, was hand crafted in 1943. It remained in the catalogue, with various updates, for more than 30 years.

1946

The Cressi company is officially founded in Genova, Italy.

1947

In 1947 the first oxygen rebreather was produced; Aro AR47. It was already highly advanced and fitted with sophisticated technical solutions, like the condensation receptacle.

Pinocchio

1950

1952

Pinocchio Mask, which makes equalization possible. It is a major innovation in the early '50s. It is the most famous and most sold mask in the world's history, and it is still included in the catalogue.

1953

Rondine Fins - Also in the field of fins, Cressi invented the model that has inspired all other manufacturers, the first floating model in the world.

1957

Cressi athlete Mario Catalani wins the first spearfishing World championship and get the gold medal in Jugoslavia.

1960

1965

Cressi opened one of the first workshops that specialized in producing optical masks. Thanks to Cressi, even people with visual defects could now get full enjoyment of the underwater universe.

1970

1970

Equi-vest - In 1970, Cressi was the first manufacturer in the world to produce Equi-Vest, a futuristic jacket that became one with the scuba tank, supplied by a hose that drew air directly from the first stage. This was the first incarnation of the modern BC.

1970

Rondine L long fins - The world leader of molding rubber fins, Cressi developed the Rondine L long fins, which enabled Jacques Mayol to go onto achieve his astonishing freediving records.

1979

Fins range - Alongside the various rubber fin models, a futuristic model was presented with a reinforced nylon blade, called the Rondine Gara, a fin that thirty years down the line is still going strong, and has been adopted by world class freedivers and spearfishermen the world over.

1980

1983

Jacques Mayol, the first man in the world to challenge the 100m barrier. He reached a depth of 105 meters. The episode has gone down in history, the record was obtained in the waters of the island of Elba in 1983.

1988

Apache Arbalète - Cressi produced a complete range of Arbalète spearguns to join the pneumatic guns, called the Apache, which very soon became the Champion speargun in the world.

1989

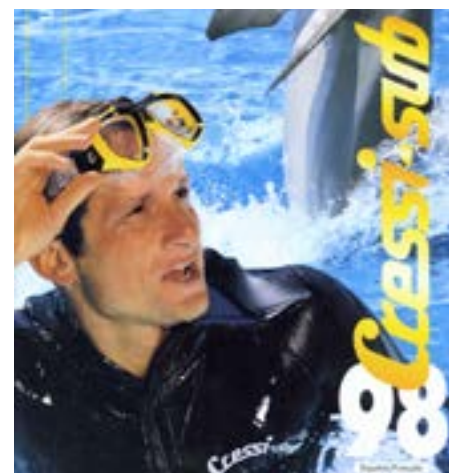

Cressi athlete Renzo Mazzarri wins the spearfishing world title in Italy.

1990

1990

Cressi continues its international expansion and the products are by now distributed in over 90 countries world wide.

1999

Cressi Athlete Umberto Pelizzari sets the freediving "No Limits Absolute Variable Weight" World Record in Portofino (Italy) reaching the depth of 150 meters.

Big Eyes Evolution

2000

2000

Big Eyes was the first mask in the world with raked lenses in an upside-down teardrop shape, an innovative form that gives the diver a complete view of all the equipment worn. They became the most widely copied and imitated mask in the world, a gratifying appreciation of how far ahead Cressi is in the design of its products.

Leonardo

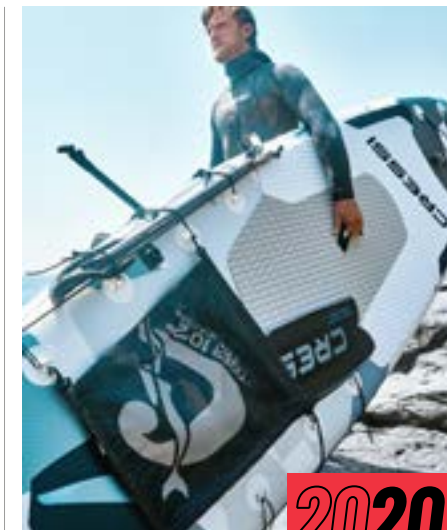

2010

2011

The Leonardo dive computer watch is introduced, the first of the products designed in-house by Cressi Elettronica in order to guarantee optimum quality, safety and reliability.

2013

The French freediving champion Guillaume Néry becomes a Cressi product endorser. The Giotto dive computer watch is introduced; it processes the data from repeat multi-day dives and dives with gas mixtures and also benefits from the Cressi RGBM algorithm. The Tracina wetsuit for spearfishing is introduced in a new and exclusive camouflage Dark Digital Specter Pat Cressi.

2020

2021

Hydrosports is the result of Cressi's experience, consisting of tradition, innovation and quality, since 1946. With its close relationship to the sea environment, the Cressi team has been able to develop this new collection in response to the direct needs it encountered in practice and through water tests on its products.

TODAY

The Cressi company is still entirely owned by the Cressi family, which carries on with the same passion, the work started by brothers Nanni and Egidio Cressi. Its spirit lies in the manufacturing tradition, with a clear preference for the conception and realization of its products in-house, from the initial design through to the smallest details. Cressi focuses on those who love all facets of the aquatic world. The company has never exaggerated with successful products on the market, but has instead always invested in research and development to the benefit of quality and reliability, the evolution of materials.

B2B

THE EXCLUSIVE AUTHORIZED
DEALER ONLINE WEBSITE

B2B.CRESSIUSA.COM

WHAT IS IT?

We have developed an online order system, meaning you can now place your order at Cressi as you shop on any e-commerce website.

HOW DOES IT WORK:

Authorized and in coordination with your Territory Sales Manager, you will receive an invitation email from b2b@cressiusa.com

HOW TO ACCESS:

1. Contact your Cressi Sales Representative or Cressi USA office and ask for your credentials
2. Go to b2b.cressiusa.com, click on dealer area, type your credentials, and log in to place your order

THE FEATURES:

- Enhanced Experience To Order Easy And Fast. Product Information, Technical Features, Descriptions, Photos
- Direct Access At Any Time To Order Product
- Check-In Real-Time The Complete Cressi Catalog Products Inventory And Immediate Availability.
- Orders Management, Order History , And Shipping Information
- Backorder Management, With Accurate Estimates Of Arrival Times.
- Newsletter With Deals, Specials, Outlet

CRESSI E_LEARNING PLATFORM

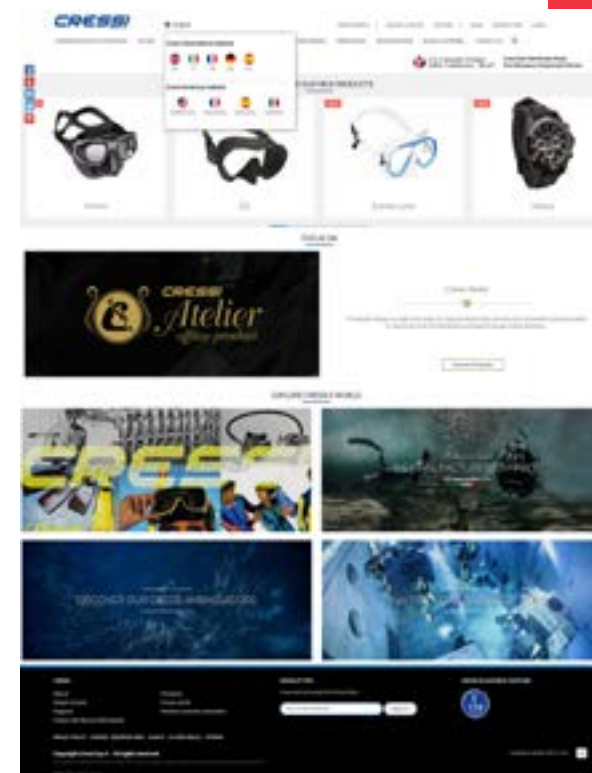

CRESSI LMS

(ONLINE E-LEARNING MANAGEMENT SYSTEM)

Bringing all things Cressi to you in a simple and easy to access way. The E- Learning Management system is made to educate our dealers on a wide range of topics from product, classes and certifications, all while in the comfort of your home or shop!

CRESSI BLOG

/ CO-OP JOURNAL

BLOG.CRESSI.COM

SINCE 2020, Cressi launch the Cressi CO-OP JOURNAL, where The Dive Community near Cressi will share awesome news and content.

- **FROM THE FIELD** From the sea of Liguria where Cressi had its beginnings to the oceans of the world, Cressi celebrates its passion for the underwater world.
- **WHAT'S NEW AT CRESSI** Our latest advances in gear technology, product design, software innovations and infrastructure.
- **ECO-NEWS** Cressi is committed to doing business and creating products that contribute to a sustainable future for our customers and the planet.
- **COMMUNITY** Cressi has transformed how it does business. In its earliest days, the diving and spearfishing community was a closely connected fraternity, a brotherhood of water lovers. Through tireless innovation and a commitment to this watersports community, Cressi continues to be an integral part of the community and the catalyst for change. At Cressi, every innovation is a step toward the future.
- **CRESSI AMBASSADORS** Our dedicated community of Lifestyle Ambassadors are serving to be a force for good by working to protect the ocean we all love. They inspire us with their stories and are role models for future generations that will follow them. For more than 75 years, Cressi has supported water lovers working to create innovative gear, increase safety in the sports of scuba diving, free diving and spearfishing.
- **SPEARFISHING** The best way to observe a fish is to become a fish." — Jacques-Yves Cousteau, a French naval officer, explorer, conservationist, filmmaker, innovator, scientist, photographer, author and researcher.

2022 SPECIAL MEDIA PROJECTS

SHARK WEEK 2022

Shark Week is seven-day marathon documentation about sharks that airs annually on Discovery Channel since 1988. Every year it features some popular celebrities who go underwater paying a visit to the apex predator. Last week of July, Discovery Channel's Shark Week is an annual, Jaws-dropping spectacle featuring more than 30 hours of original programming about one of nature's most feared predators.

2022 SHOWS

- Great White Battleground
- Jackass Shark Week 2.0
- Impractical Jokers: Shark Week Spectacular
- Sharks! With Tracy Morgan
- Jaws vs The Blob
- Monsters of the Cape

CIVE 2022 SECOND CRESSI INTERNATIONAL VIRTUAL EVENT

The Second edition of the Cressi International Visual Events was on October 22, 2022. It was a compilation of life virtual sessions that took place from country to country, starting in Australia and ending in South America. We have a robust agenda that includes different topics, many special guests, and our technicians that introduced the new 2023 Cressi products. It was an event to be with the Cressi Family, colleagues, partners, retailers, and media for 24 hours non-stop with a lot of content.

ADVENTURE, CULTURE, & SERVICE.

THE BUCKET LIST FAMILY

Family Travel Journalists
Worldwide

The Gee family, just a typical family working from all over the world as Family Travel Journalists! Their story began on August 15, 2015, when they decided to sell everything and leave home for a trip around the world together. They started an Instagram and YouTube channel called, The Bucket List Family. It was a difficult decision to reset their lives and sell everything, but they are thankful every day that they took that chance and were brave. They hope that their little family and this big adventure continue to grow!

📷 [thebucketlistfamily](#)

LUCA DELLA SANTA

Professional Paddle Board Instructor
Fort Lauderdale, FL

I was raised on the beaches of North Carolina and South Florida, where my love for the ocean began. Growing up, I was fishing, diving, or surfing any chance I could get. With my love for the ocean and wanting to experience it in different ways, I convinced my parents to get me my first paddle board at age 13 and was immediately hooked. Years later, I became a paddle board instructor in college and began to teach lessons and take customers on paddle board tours. Since then, I have continued to use my knowledge, skills, and passion for the sport to help teach and grow the paddle boarding industry in the best way possible.

BROOKS LAICH

Professional Hockey Forward

He's a Canadian former professional ice hockey forward. He played over 750 National Hockey League games. Brooks is a multi-athlete and a sports lover, so what better way to kick off the day? A little snorkel session when the water is calm and fishes and turtles are active.

A full-page background image showing a person in mid-air, performing a backflip over a red kayak on the ocean. The person is wearing blue shorts. The kayak is red with a white logo. The water is blue, and the sky is clear. In the background, there are rocky cliffs and a small sailboat on the horizon.

CRESSI HYDROSPORTS 2023 COLLECTION

Hydrosports is the result of Cressi's experience, consisting of tradition, innovation, and quality, since 1946.

Today, with this new line of products, Cressi seeks to bring its passion above the surface and to the horizon. The Hydrosports line brings together our new iSUP & iKAYAK collection, along with our snorkeling, swimming and kid's collections. These assortments reflect not only the hard work and dedication of our designers and engineers to create innovative new products, but also highlights Cressi's proud history of making products — most of them manufactured in our facility in Italy — which remain in the market for decades, thanks to our commitment to safety, performance, and reliability. With the company's close relationship to this environment, the Cressi team has been able to develop this new line in response to the direct needs it encountered in practice and through water tests on its products.

Cressi's Hydrosports line mirrors people who share the same passion as us, discovering the world beyond the horizon.

Start exploring with Cressi Hydrosports.

ISUP CATALOG
A COMPARING TOOL

The Cressi Hydrosports catalog is designed to describe as best as possible each board's features, such as materials, construction, ability scores and box/set contents. This catalog collects all the information to let you find the best suitable products to your need to have the best experiences on water.

Case packaging
Case packaging
picture and box
content list

Human size comparison
Thanks to this visualization,
you can immediately see the
size of the SUP, compared to
a human figure of 180 cm in
height.

Comparison table
At the end of the ISUP
section you can find the
comparison table between
all the tables in the catalog.
On this double page you
can have an overview
of the entire Cressi
Hydrosports ISUP
collection.

THE SHAPES OF
THE COLLECTION

The shapes of the SUP Cressi Hydrosports 2022 are designed to combine aesthetics and functionality:

All Round: easy to handle and stable, ideal for all levels of experience and sea conditions.

Touring: highly hydrodynamic, it is suitable for the more experienced and for long paddling sessions.

Fish: very stable and voluminous, it is suitable as a base for alternative activities.

	ALL ROUND	TOURING	FISH
Stability	++++	+++	+++++
Maneuverability	+++++	+++	++++
Hydrodynamics	+++	+++++	++

FIND YOUR
BOARD
COMPATIBILITY
CHART

This matrix is intended to help you find your SUP board according to your body measures and skill level.

Find the boards list in the cell between the cross section of row and column.

ELEMENT

ALL ROUND ISUP SET

Minimalism and pure lines, combined with the quality of Cressi DWF technology, give rise to a classic, no-frills inflatable SUP for paddling purists.

The All Round shape, with rounded nose and flat tail, provides great maneuverability and stability. The nose rocker (curved bow) improves buoyancy by preventing the tip of the board from plunging into choppy waters, making Element perfect for sea use. The large diamond-patterned pad offers a spacious walkable area and optimal grip, even when barefoot in the water.

Element is a ready-to-use set, easy to inflate (in under 10 minutes), carry and store thanks to the practical backcase pack supplied: a space-saving solution equipped with all the accessories you need to go stand-up paddleboarding with peace of mind. Available in different sizes, it's suitable for all levels of experience and build.

ISUP CONSTRUCTION

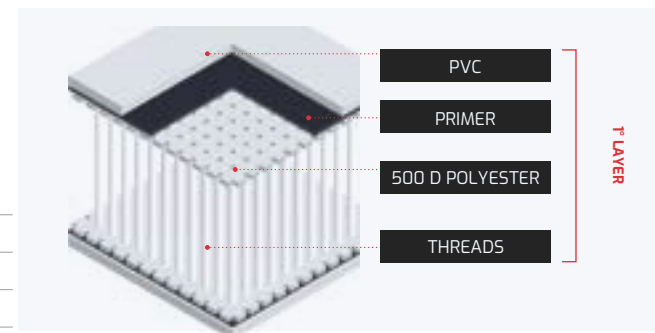

DOUBLE WALL FABRIC

Element boards are made with Cressi DWF (Double Wall Fabric) technology, an airtight multilayer (1) material whose internal fibers (2) give it a perfectly flat and rigid surface

once inflated. The double-layer rail (3) with variable thickness guarantees excellent performance during use but is easy to roll up, for a board that's durable and easy to use.

TRAVELIGHT

FOLDABLE 9'2" ISUP SET

Easy to transport, light and compact: Travelight is the Cressi Hydrosports SUP that's ideal for travelers. The special pad design of the SUP enables it to be folded longitudinally then rolled up, thereby occupying half the space of an inflatable SUP of the same size. Travelight is made with Cressi LWF technology, our lightest and strongest construction in the Inflatable category, which minimizes its weight without affecting performance.

The All Round shape makes the board highly versatile and manageable for different levels of experience and build.

The set is complemented by similarly compact accessories designed ad hoc, including the small Feather pump and the MOD5 modular paddle, which lets you transport the entire set in the TERA backcase pack, only 50 cm tall.

REEF

WINDOW 10'2" ISUP SET

The full snorkeling experience from above the surface: a new perspective for encountering and observing the underwater environment with maximum respect. This is Reef, the new Cressi Window ISUP with the biggest window yet.

The large 34" 'fish' shape coupled with the pre-laminated material have enabled us to design an elongated window that extends from the

paddling position to the bow, and thanks to the sturdy layer of Crystal Clear PVC, Reef's window offers an exceptional view of the seabed during your outing.

The high buoyancy, curved bow and generous 9" drift give the board great stability, to let you comfortably admire the sea wherever you go.

FLUID

ALL ROUND 10'2" ISUP SET

Our most versatile, safe and performing board in all aquatic conditions and activities, suitable for learners as well as the most experienced, ideal for sea excursions in calm or choppy waters, through to yoga and fitness.

Thanks to Cressi Double Chamber PLF technology, this inflatable board also combines exceptional structural stiffness with the safety of a second integrated air chamber.

Stable and maneuverable thanks to its generous thickness (15 cm) and wide width

(81 cm), Fluid is the ideal SUP to ensure maximum fun at all times. Equipped with an 8" fin to increase maneuverability, the classic All Round shape with a rounded and curved bow transmits a linear and gentle feeling of paddling.

The diamond-patterned pad always ensures a firm grip, even with bare feet in wet conditions. Fluid is a set complete with all the accessories you need to practice, and thanks to the supplied pump it inflates in under 10 minutes.

TIGER SHARK

MULTITASK 10'2" ISUP SET

Can the pleasure of stand-up paddleboarding be combined with a passion for spearfishing and freediving? Tiger Shark was born from this question and is designed to offer new possibilities for enjoying these activities.

The large and spacious 'fish' shape is ideal for providing stability onboard when preparing and setting up the equipment.

Thanks to Cressi Storage Hatch PLF technology, this board makes it easy to transport equipment, with a large and practical locker in the bow equipped with a cover mesh pocket for storing items like ropes, fins or the catch itself.

The supplied adjustable strap with D-Ring can be passed under the board to connect the ascent line during diving and stored while paddling, so as not to affect hydrodynamic performance.

The bow is equipped with a base and shaft with a diving flag, while the D-Rings are equipped with adjustable elastic bands to attach spearguns and rods to the side hooks, so as not to take up space onboard and always offer a view of the equipment. The practical bungee elastic cords are positioned at the stern to provide an additional cargo area.

FURY

TOURING 12'2" ISUP SET

Fury is the ISUP from Cressi Hydrosports dedicated to touring. The hydrodynamic and elongated shape, coupled with the very light Carbon paddle supplied, make this set the best one for lengthy paddleboarding sessions.

The curved bow (nose rocker) improves its buoyancy in the sea, preventing the tip from sinking into the ripples of the waves, while creating hydrodynamic resistance.

The Cressi Double Chamber PLF technology maintains a highly performing structural stiffness while paddling, despite the board's length of over 12 feet, and the double air chamber guarantees greater safety in case of accidental punctures.

The large 9" drift positioned far from the center of gravity helps maintain a linear trajectory even at low speeds, providing an advantage over long distances.

SOLID

RENTAL ISUP

Solid is the Cressi Hydrosports SUP family designed specifically for professional rental. The use of Double Chamber Reinforced PLF technology and triple-layer anti-abrasion rail (the most resistant and robust composition in the whole collection) guarantee maximum structural rigidity and great safety during sessions at sea.

The board is available in the All Round version with one seat and Tandem with two seats. Due to their intended professional use, the two versions of Solid have features designed to improve the experience of both the boards' end users and those who rent them.

Numerous D-rings and handles are positioned along Solid's structure to facilitate hooking and transport. Furthermore, each side features special dedicated HIN (Hull Identification Number) spaces for customized numbering by the rental center.

The US Click fins supplied have a quick coupling and release system, with a variable-intensity locking system.

Each board will be accompanied by a Trailer Leash, a reinforced elastic rope with double S-shape carabiner, useful for towing and mooring.

SOLID IS EQUIPPED WITH US QUICK SKEG FIN 9" WITH FAST LOCKING SYSTEM:

SOLID HAS 5 PRACTICAL HANDLES TO FACILITATE TRANSPORT AND STORAGE:

PADDLES

SUP & KAYAK

Lightness, strength and versatility: these are the key values our collection of paddles seeks to offer. Our designs are created to meet the specific needs of those who go stand-up paddleboarding and kayaking, with a focus on inflatable products and portability. For this reason, the choice of materials is directed only towards those with high levels of corrosion resistance, lightness, and elasticity such as aluminum, nylon and carbon fiber. Behind the apparent simplicity hides great attention to detail, aimed at improving performance and usability. Highlights include: the one-hand height adjustment mechanism, the floating capacity and an easy assembly system. Finally, modularity is what unites all our paddles, to ensure easy transport and storage within the sets they are supplied in.

SHAFT LOCKING LEVER

CODE

WELTER

2000 CC HAND PUMP

Welter is the largest capacity Cressi Hydrosports pump. With a volume of 2000 cc, it can inflate a 300 l board in under 10 minutes. The mechanical selector can be used to set the pump to double or single action, to reduce fatigue when inflating at high pressures. Equipped with a deflation function, pressure gauge and multiple bayonet connections, it's compatible with all Cressi Hydrosports SUPs and kayaks. Its foldable pedestal and unscrewable handles make the Welter compact and easy to store in a backcase pack.

SPIDY

DRY DECKCASE PACK 25 LITER

Spidy 25L Dry Deckcase pack born from the desire to create a waterproof backcase pack that can be comfortably carried on water during paddling activities. Spidy deckcase pack features adjustable straps with snap hooks, which can be hooked to the D-rings of each SUP boards from our collection.

The backcase pack is completely waterproof and can be opened and closed in two different ways: from the top side, thanks to the large opening with strap for watertight closure, or from the bottom by the practical dry zip that

surrounds the backcase pack's structure. The lower hinged opening is especially useful during paddling, when the Spidy is fastened at the board, as it lets you easily access the inside of the deckcase pack without having to unroll the upper opening. The front of the backcase pack has a bungee rope to storage equipment, while the side has a utility pocket.

The back and the adjustable padded shoulder straps, combined with the chest strap, make the Spidy a practical, comfortable and roomy backcase pack, ideal for all water activities.

BARON

WINDOW TO THE SEA

The Baron is the version of Duke with a different case pack (cardboard box instead of the reusable bag) and a more simplified aesthetics, but with identical features that differentiate it from other face masks on the market.

The Duke-Baron project has required in-depth studies of the design and circulation of both inlet and exhaust air, in order to solve the usual problems in these masks in competing models and make the Cressi face mask especially safe in any situation. The valveless design guarantees a large supply flow, unthinkable in other similar models, especially in case of fatigue or stress. The evacuation of the exhalation is

channeled in separated ductwork that prevents the accumulation of carbon monoxide in the breathing zone.

The air circulation in Baron is clearly superior to that of any other mask on the market. Tested in the laboratory of the Engineering Department of the Milan Polytechnic, where the results exceeded any expectations.

AVAILABLE FULL FACE MASK WALL DISPLAY

KNIGHT

FULL FACE MASK

Designed with the highest quality materials and technology. It lets you explore the marine world by breathing naturally through the nose and mouth with zero effort. Its field of view is approximately 30% larger than common full face masks.

The air deflector completely eliminates fogging. It is equipped with special safety valves for draining the water. The snorkel has a special dry system that prevents water from entering.

REDESIGNED BUCKLE SYSTEM. INCREASED STURDINESS AND LIFESPAN.

NET BAG INCLUDED

PALAU LAF SET

ONDA MASK + SUPERNOVA DRY SNORKEL + PALAU LAF FINS

The Palau LAF Set is ideal for active water sports enthusiasts. Easy to pack, it's the ultimate travel companion and is suitable for snorkeling, swimming, body surfing, boogie boards and more. The Palau Long Adjustable Fins (LAF) are open heel made for use with bare feet and provide outstanding comfort and versatility. The open heel design means each fin can accommodate a wider range of sizes. It also allows dive schools or rental departments to stock fewer sizes while providing very high quality fins to customers. The Palau's blade delivers excellent thrust with a modest kicking effort. The Onda has a single tempered glass lens, and is designed for snorkeling, swimming and scuba diving. The skirt is made from

soft hypoallergenic transparent silicone. The visibility provided by the single lens and the unusual shape of the frame extends in all directions. Excellent seal on many face types, average internal volume. Quick-release strap buckles.

The Supernova Dry has a splash guard on the top that reduces the entrance of water during use on the surface. The top features a special valve that seals the tube when diving even the snorkel is submerged. A water collector, featuring a purge valve, allows quick and easy expulsion of water. The Palau set includes a reusable zip-up bag with a shoulder strap, perfect for travel and recreational use.

BIG EYES & SUPERNOVA DRY

BIG EYES MASK & SUPERNOVA DRY SNORKEL

The Big Eyes & Supernova Dry is a combination of a really good Mask and a complete Dry snorkel perfect for enjoying the snorkeling. The Big Eyes, that began a revolution, remains one of the most duplicated designs today. Its inverted tear-drop lens shape and raked lenses provide 30% greater field of view than typical twin-lens masks. The high-grade silicone skirt's unique shape positions the lenses comfortably close to the eyes and provides an excellent

seal. The Supernova Dry has the dry-top design that allows users to take every breath with confidence and focus on the reef below. A float-activated valve instantly seals off the breathing tube if submerged while swimming or from overhead waves. A generous bore provides ample airflow and a lower purge valve enables instant clearing when needed. The Combo comes with a nice and useful hand bag for carrying the equipment.

MAREA & SUPERNOVA DRY

MAREA MASK + SUPERNOVA DRY SNORKEL

The Marea & Supernova Dry is the perfect solution for most snorkelers and scuba divers. The Marea is made in 100% silicone to assure comfort and a perfect seal. It is a multi-use mask suitable both for use on the surface and in depth thanks to the small inner volume and to the soft nose pocket, which makes equalization easy. The Supernova Dry has a splash guard

on the top that reduces the entrance of water during use on the surface.

The top features a special valve that seals the tube when the snorkel is submerged. A purge valve at the bottom of the tube allows for quick and easy expulsion of water.

PERLA & SUPERNOVA DRY

PERLA + SUPERNOVA DRY SNORKEL

The Perla & Supernova Dry combo is suitable for enjoying snorkeling and diving without worrying about water entering the mask or snorkel. The Perla mask skirt is made out of 100% hypoallergenic soft silicone and the lenses are tempered glass and anti-fog treated. The mask has a smaller profile and a slight tilt, allowing the mask to sit closer to the face. The Perla is a low volume mask that sits closer to the eyes, increasing the underwater field of view. The Supernova Dry snorkel is equipped with a

special valve that seals the tube as you dive down, almost totally preventing the entrance of water when the snorkel is submerged. At the bottom of the snorkel there is a large purge valve, making expelling excess water quick and easy. The Perla & Supernova Dry Combo is perfect for any intermediate to advanced level snorkeler.

IKARUS & ORION DRY

NEW COLOR 2023

IKARUS MASK + ORION DRY SNORKEL

The Ikarus & Orion Dry combo is a lightweight equipment great for travelers that want to discover the underwater world. Both mask and snorkel have parts made with soft and hypoallergenic silicone to ensure comfort and ease of use. The mask has a silicone skirt to ensure comfort and a perfect seal. Thanks to the adjustable buckles, it is possible to adjust

the length of the silicone strap. The lenses are made in tempered glass. The snorkel features a special valve on the top that seals the tube when submerged. The mouthpiece is made in soft silicone for avoiding jaw fatigue. At the bottom, a purge valve makes it easy to purge the water from the snorkel.

ESTRELLA

The Estrella is a mask suitable for teens and people with narrow faces. This mask has a single tempered glass lens to ensure a wide view, designed for snorkeling and swimming. The skirt is made from soft hypoallergenic transparent silicone, an ideal material that is soft on the skin and ensures a perfect seal.

The mask features an easy-to-reach one-hand nose pocket for ear equalization. The buckles system allows to easily adjust the length of the mask strap. Mask has a double feathered edge skirt and wide split strap design that provide a great seal.

MAREA

The Marea is made in 100% silicone to ensure comfort and a perfect seal. It is a multi-use mask suitable both for use on the surface and in depth thanks to the small inner volume and to the soft nose pocket to compensate for air pressure. A mask particularly suitable for freediving and snorkeling, but just as

appropriate for use in scuba diving. It has separate lenses, a skirt edge that adapts to most faces and a small inner volume, perfect for freedivers. It is made from soft silicone and comes with strong rapid action buckles to adjust the strap.

ALPHA ULTRA DRY

The Alpha Ultra Dry uses the latest dry-top snorkel technology with a compact valve that automatically closes to keep water out regardless of the angle of the snorkel. The Alpha also has a new, highly flexible tube that reduces jaw fatigue and folds compactly for storing in a BC pocket or travel case pack. A new, wider elliptical shape increases air flow capacity for more comfortable breathing, while the purge valve enables instant clearing.

TECHNICAL FEATURES

- Dry Valve Technology seals breathing tube when submerged at any angle
- Flexible tube allows folding for storage
- Mouthpiece drops away when not in use: great for scuba divers
- Angled mouthpiece reduces jaw fatigue
- Lower purge valve allows any water to be quickly expelled
- Streamlined design reduces drag while swimming
- Adjustable snorkel keeper for securing to any mask

TAO DRY

The Tao Dry is a dry snorkel that allows divers to take every breath with confidence and focus on the reef below, not worrying about water in your air way. The top has a Splash Guard and a floating mechanism that prevents entry of water when submerged. The contoured tube provides ample airflow and a lower purge valve enables instant clearing.

PALAU LAF

LONG ADJUSTABLE FINS

These open-heel fins are made for use with bare feet and provide outstanding comfort and versatility. The open-heel design means each fin can accommodate a wider range of sizes, so family members or friends can share the equipment. This allows dive schools or rental departments to stock fewer sizes while providing very high-quality fins to customers. The Palau's blade delivers excellent thrust with a modest kicking effort.

IDEAL FOR TRAVEL

MADE IN ITALY

PALAU SAF

SHORT ADJUSTABLE FINS

The Palau short adjustable fin (SAF) opens the way for a new type of snorkeling and swimming fin. It has been designed for two specific purposes. The first was to have a foot pocket that could easily adapt to at least three or four consecutive foot sizes. This would enable the same fin to be used by all the members of a family, or by a group of friends. It would also make it great for rentals in a diving center or on a charter boat, without requiring an infinite

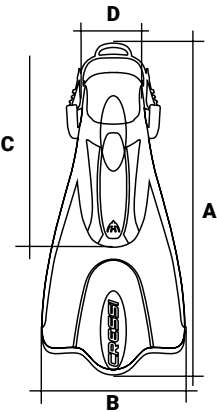

number of sizes. The second purpose was to guarantee extreme comfort and an ease of fit in a strapped open heel fin even if it is to be worn barefoot.

TONGA

SHORT ADJUSTABLE FINS

The Cressi Tonga are short open heel fins with adjustable straps to use both outdoors and indoors. They are ideal for travelers thanks to their dimensions and light weight.

The buckles have a special design to ensure robustness and long use. The fin strap features a large thumb loop to make easy the donning and doffing. It is also practical to hang them on a hook.

The foot pocket is made of a rubber material that makes donning comfortable and easily adapts to different shapes of feet. Being an open foot pocket fin with an adjustable strap, it adapts to different shapes of feet and can also be shared between different people who

have a similar size. The composite design of the blade provides comfortable finning and helps to reduce leg cramping. The fins come with a practical net bag ideal for rinsing the fins after use and removing any sand.

FIN DETAILS:

BONETE PRO

SHORT ADJUSTABLE FINS

The Bonete fins are short, open-heel fins with adjustable straps. The redesigned buckle system increases the sturdiness and ensures a long lifespan. The fin strap features a large thumb loop for easy donning and doffing. They can also be hung on a hook for drying. The foot pocket is made of a rubber material for comfort and adapts to all feet. This open-foot pocket fin comes with an adjustable strap, which allows it to be shared between different people in a similar foot size-range. The composite design of the blade provides comfortable finning and

helps reduce leg cramping. A practical net bag is included with the fins, ideal for rinsing them after use and removing any sand. The fins are ideal for travelers due to their compact dimensions and light weight.

MADE IN ITALY

PLUMA

FULL FOOT POCKET FINS

This high-tech fin designed specifically for snorkeling benefits from the best technologies used in freediving and scuba diving. Cressi's unique molding process also allows for the use of three separate materials to create a highly-responsive blade. Now, snorkelers can power through currents and enjoy hours on the

water without undue muscle strain. The Pluma's computer-designed foot pocket provides excellent power transmission and unparalleled comfort.

TECHNICAL FEATURES

- Patented Cressi molding technology used to create lightweight, responsive blade
- Computer designed foot pocket with stiff base better transmits power down the blade
- Soft thermo-rubber foot pocket material is comfortable for extended wear
- Lightweight polypropylene blade
- Blade ribs provide precise flex control for maximum thrust

AGUA

FULL FOOT POCKET FINS

The Agua is a very easy fin to use and doesn't require any special athletic or water-sports training, yet still delivers excellent performance without tiring the feet.

Thanks to the latest technology and Cressi's experience in developing these products, we've been able to markedly decrease the weight of this fin compared to others in its category, while still preserving excellent responsiveness.

The foot pocket features the original Self Adjusting Foot Pocket system, which thanks to the special softness and elasticity of the blends, makes for a consistently soft and adherent fit.

MADE IN ITALY

RONDINELLA

FULL FOOT POCKET FINS

The Rondinella is the ideal fin for snorkeling and swimming. Made with the same materials as the more technical range: polypropylene for the skin and very flexible thermoplastic rubber for footwear and side members. Polypropylene is the main elastic of the blade which translates into a fluid and effective finning with reduced effort.

The fin is designed with the shoe in the middle of the blade so that the transmission of force is effective, with a progressive and pleasant movement for the swimmer, reducing the hydrodynamic resistance of the upper part of the foot.

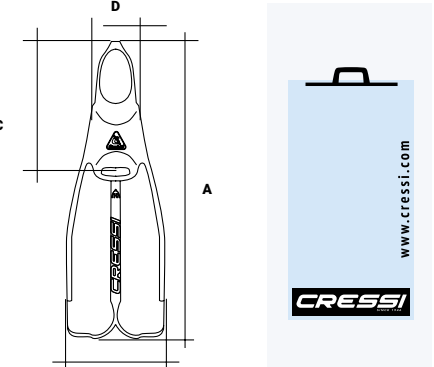

The sole of the shoe has a calculated rigidity to avoid foot cramps. The back area of the foot pocket is larger and reinforced, and a small rubber tab on the upper part makes it easier to put it on.

Its proportioned design, the materials, and the comfort of its structure are an excellent quality / price / comfort ratio of the fins of this category.

TECHNICAL FEATURES

- Full foot long blade
- Above blade foot pocket
- Reactive polypropylene blade
- Flexible and comfortable foot pocket
- Light and powerful

MADE IN ITALY

CLIO

FULL FOOT POCKET FINS

Colorful and functional, the Clio has been a staple of the Cressi fins line for many years. The blade, made with EVA, is melted during the molding with a Soft Thermo-Rubber (elastomer) used for the foot pocket, for the side stringers and for some inserts, to offer maximum quality and comfort. It features a fluid and undemanding kick, perfect for children and adults alike. Because of its extreme comfort, prolonged use of the fin is possible. The Clio is an excellent fin for snorkeling and swimming.

AGUA SHORT

The Cressi Agua Short swim fin is the shorter more versatile version of Cressi's popular Agua long blade fin. The Agua Short fin is ideal for travelers and it is a concrete swimming aid either for pool or sea swim-lovers or snorkelers. It has the same features as Cressi fins such as an above-the-blade, self-adjusting foot pocket for incredible flexibility and comfort. The Agua Short fin is great for any level of user and it is a must-have for your next tropical vacation or water workout next time you travel.

TECHNICAL FEATURES

- Light polypropylene blade
- Self-adjusting foot pocket system
- Above blade foot pocket
- Short blade

MAXIMUM FLEXIBILITY

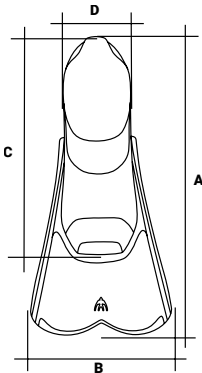

LIGHT

SPECIFICALLY DESIGNED FOR TRAINING AND BUILDING MUSCLES

The Light fins are specifically designed for pool use and for swim training, but can also be used adequately for recreational swimming and snorkeling. The short blade is made of a highly reactive and light material which guarantees agile and effective kicking without tiring out your legs. The length of the blade has been researched and studied by Cressi to ensure perfect muscle training without causing cramps or discomfort. The anatomically designed foot pocket is made from soft rubber elastomers, and it houses the foot with a great deal of comfort, even during long swimming sessions.

PREMIUM
ULTRA STRETCH
NEOPRENE
ON LEGS

Cressi wetsuit designs guarantee complete adherence to the body, just like a second skin. The flex areas facilitate movement, ensuring complete comfort and ease of donning and motion, especially in the arm and ankle areas.

The Morea is a 3 mm neoprene one-piece wetsuit ideal for scuba diving, snorkeling, swimming, and other aquatic sports in warm waters. It is assembled using flat sewing with anti-fraying thread. The large neoprene panels optimize its natural elasticity and combine with an elastic nylon lining. With the goal of reducing water leaks, the dorsal YKK® zipper is equipped with an Aquastop® flap. Velcro® dorsal zipper closure. The ankle and wrist finishes are completed using Overlock cuffs. It has an Anatomic

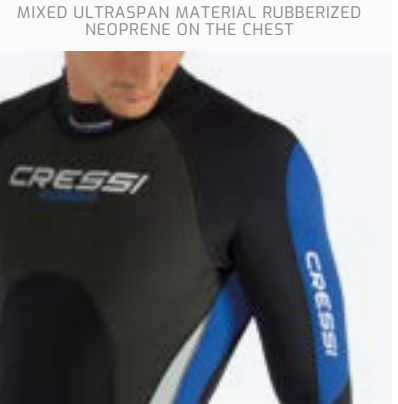

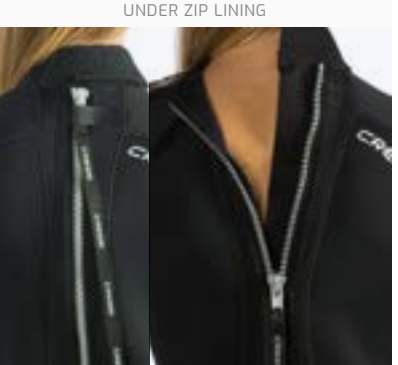

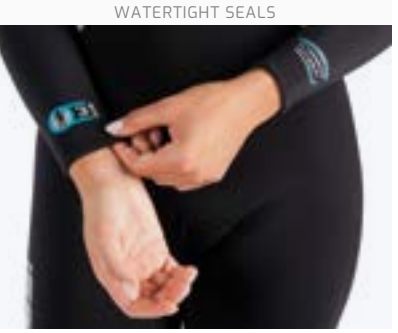

Shape® preformed collar that complements the contours of the chest and neck with a super-elastic Ultraspan® lining and nylon lining mixed with Ultraspan® in the joint areas. Improving hydrodynamics, the elasticity guarantees a quick-dry when the suit is out of the water and exposed to the wind in aquatic activities like skiing, sailing, or surfing.

NeoPro-fit

Cressi wetsuit designs ensure a superior fit. NeoPro-fit combines a high level of erosion resistance and durability, along with superb elasticity and softness. We guarantee better performance and affordability.

All-in-one for temperate waters, hoodless, with long sleeves and pants, made from double lined 2.5 mm thick neoprene. To reduce water infiltration, the strong rear YKK zipper has an Aqua stop under the zip. The neck is watertight

thanks to a single-lined neoprene seal. Legs and sleeves finished with the simple, economic, and reliable Overlock cuff. The legs are pre-formed to guarantee easier kicking movement.

BAHIA FLEX

2.5 mm

TECHNICAL FEATURES

- Front-zip full wetsuit
- YKK zipper
- Made of flexible double-lined Neoprene 3 mm thick
- Overlock stitching cuffs
- Reinforced knee areas

...FLEX Area

Cressi wetsuit designs guarantee complete adherence to the body, just like a second skin. The flex areas facilitate movement, ensuring complete comfort and ease of donning and motion, especially in the arm and ankle areas.

The Bahia Flex 3mm is the successor of the Bahia front-zip full wetsuit. This model is redesigned to ensure total freedom of movement and can be used in any water sport. The wetsuit features separate anatomical cuts for both men and women. The front-zip, made of metal YKK®, ensures ease of donning and doffing. The cut is designed to guarantee complete adherence to the body, just like a second skin. The Flex areas facilitate movement, ensuring complete comfort. A small difference between thickness makes donning and movement easier, particularly in the arms and ankle areas. Cuff seals prevent

water entry while swimming and the double-lined Neoprene resists compression at depth. The double-lining is more durable than the single-lining of other competitor's wetsuit. The knee and shin area is reinforced to protect the wetsuit against accidental scratches. The Aquastop wrist and ankle seals limit water exchange.

- Quality YKK zipper for durability

NeoPro-fit

Cressi wetsuit designs ensure a superior fit. NeoPro-fit combines a high level of erosion resistance and durability, along with superb elasticity and softness. We guarantee better performance and affordability.

The easy-entry, front zipper placement of the Lido makes it effortless to put on. It is perfect for snorkeling, diving in tropical waters, swimming, surfing and other activities. Highly flexible 2 mm Neoprene and a flattering cut conform easily to most body shapes for a great fit. The absence of

seams under the arms prevents the intrusion of water. Fabric cuts are anatomical for both men and women. The legs and sleeves are finished with a simple, economic, and reliable Overlock cuff.

2.5 mm

TECHNICAL FEATURES

- Rear zip
- Adjustable collar with velcro closure
- Children's sizes available

FLEX Area

Cressi wetsuit designs guarantee complete adherence to the body, just like a second skin. The flex areas facilitate movement, ensuring complete comfort and ease of donning and motion, especially in the arm and ankle areas.

This is the new version of the most known Cressi one-piece wetsuit for water sports and tropical seas. It's presented with a new pattern, and new captivating aesthetic. It's available in men's, women's and kid's versions. Monoshort without hook, with short pants and sleeves in double fodder neoprene 2.5mm.

It's ideal to snorkeling, swimming, tropical seas and any kind of water sport. Flat neoprene on the chest area to obtain more elasticity. There are insertions in flat neoprene on wrists and legs to minimize water filtrations. YKK® 8 pitch dorsal zip with Velcro® closing.

TORTUGA

2.5 mm

26° - 28° C
79° - 82° F

TECHNICAL FEATURES

- One-piece short wetsuit
- 2.5 mm neoprene for warm water diving
- Self donning back zipper with pull tab leash
- Anatomic cut neck closure
- Provides abrasion, exposure, UV protection

The Tortuga Man and Woman wetsuit is a one-piece shorty ideal for tropical waters. The wetsuit is made with 2.5mm double-lined neoprene, offering maximum comfort and thermal protection for all water sports. The back zipper closure is attached to a pull-tab leash to ease donning and doffing.

The suit's seams are sewn for strength and durability. This suit is perfect for tropical waters, swimming, sailing, and snorkeling, diving and water sports in general while offering UV protection to covered areas. This suit offers great range of movement and incorporates an adjustable Velcro fastener collar for maximum comfort.

NeoPro-fit

Cressi wetsuit designs ensure a superior fit. NeoPro-fit combines a high level of erosion resistance and durability, along with superb elasticity and softness. We guarantee better performance and affordability.

TECHNICAL FEATURES

- One-piece short wetsuit
- 2.5 mm double-lined high stretch ultraspan
- Ultra span neoprene decreases water exchange
- Provides UV protection
- Front-zip for easy donning and doffing

FLEX Area

Cressi wetsuit designs guarantee complete adherence to the body, just like a second skin. The flex areas facilitate movement, ensuring complete comfort and ease of donning and motion, especially in the arm and ankle areas.

The Playa Flex is the successor of the Playa front-zip short wetsuit. The cut is designed to guarantee complete adherence to the body, just like a second skin. The Flex areas facilitate movement, ensuring complete comfort. A small difference between thickness makes donning and movement easier, particularly in the arms and ankle areas. The wetsuit features separate anatomical cuts for both men and women. This model is redesigned to ensure total freedom of movement and to be used in any water sport.

The front-zip, made of metal YKK®, ensures ease of donning and doffing. Divers will appreciate the high-quality double-lined Neoprene, which retains its shape and insulating ability at depth. The Playa Flex is perfect for snorkeling, diving in tropical water, swimming, sailing and all water sports in general. The arms and legs are made with an elastic Neoprene Ultraspan® braided seal to minimize water infiltration.

TROPICAL GLOVES

2 mm

Five fingered gloves 2 mm thick Neoprene, made from two different soft and light materials. The palm and finger area uses a light Gray Napa that becomes extraordinarily soft upon contact with the water. However, the upper part of the glove and the wrist area are made from very thin, supple neoprene. A large area that corresponds to the upper side of the wrist allows for instant adjustment, both before and during the dive. These are particularly suitable gloves when you need the very best touch sensitivity in the fingers. The palm also offers good resistance to abrasions.

The Crete is great for hauling virtually any dive equipment, even the heavy stuff. The duffel-style mesh bag is made of durable polyester mesh that lets water drain easily. Roomy enough and strong enough for a full set of snorkeling, it is an ideal gear-hauler for live-aboard use or for carrying dive suits separately. The mesh bag is also excellent for carrying rental equipment when resort diving. It folds compactly into a round bag with

handle and is easy to store in your suitcase or main dive bag, ready when you need it. Bag is equipped with YKK zippers. Padded full wrap-around carry handles make hefting the load that much easier. The Crete dimensions are long enough to case pack a complete set of snorkeling as fins, masks, snorkels, wetsuits. You can rinse the gear while still-in-the-bag and let it dry after.

MAREA JR & MINI DRY

MAREA JR MASK + MINI DRY SNORKEL

The Marea Jr & Mini Dry is a combination of two colorful products for children that want to have fun snorkeling and discovering the underwater nature. The Marea Junior is Italian made and is the small size of the Marea for adults. It is a 2 windowed mask with tempered glass lenses. It features a double feathered skirt edge that adapts to most faces and a small inner volume that is perfect for going deep underwater. The Marea Jr is made of 1 high-quality soft silicone that offers extraordinary and unprecedented comfort and fit. It is equipped with micrometric

buckles for easily adjusting the strap length. Thanks to the silicone hand-nose pocket it is easy to equalize the pressure even wearing thick gloves. The Mini Dry features a Splash Guard and a Dry Top to avoid water entering the tube. The corrugated tube is flexible and made in soft silicone. At the bottom there is a small tank and a purge valve for blowing out easily some water. The mouthpiece is soft and made in clear silicone. The snorkel has a keeper for securing it to the mask strap that features a quick release for un-linking it.

ESTRELLA JR & TOP

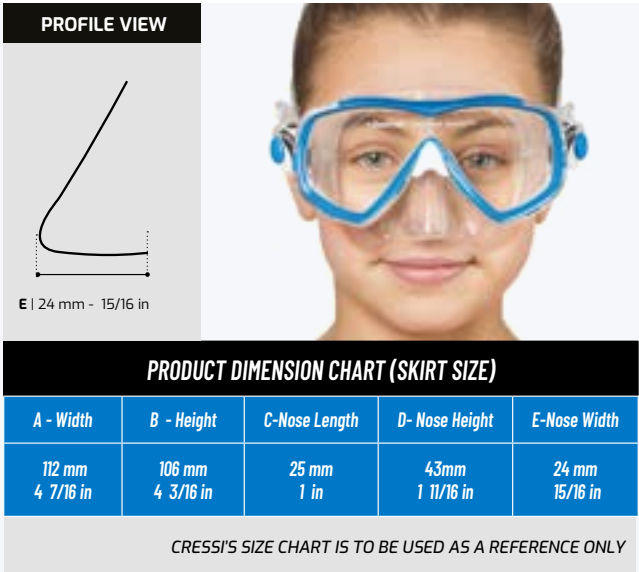

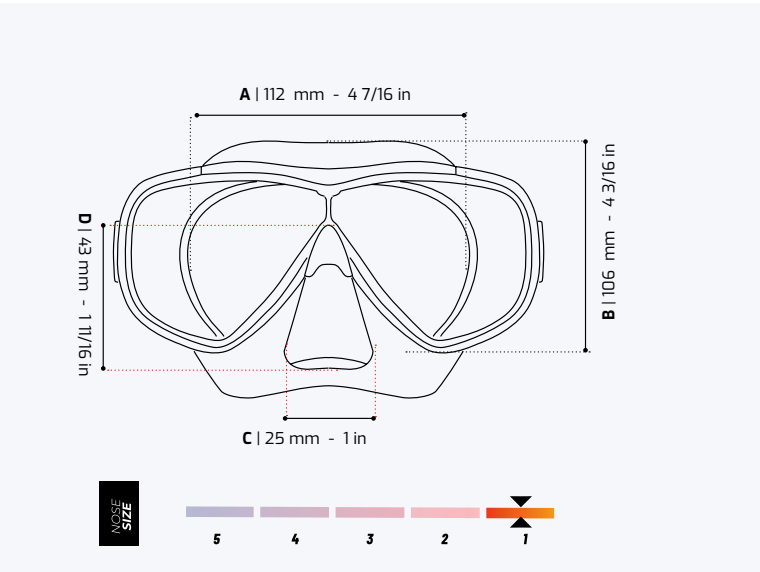

ESTRELLA JR MASK + TOP SNORKEL

The Estrella Jr mask is a single tempered lens mask suitable for young water lovers and is designed for snorkeling, swimming and scuba diving. The mask skirt is made from soft hypoallergenic transparent silicone with a double feathered edge that gives an excellent seal on many face types. The Top snorkel is a modern, small semi-dry snorkel, designed specifically for kids. The tube is made from a transparent, contoured and flexible material.

The quick-release snorkel keeper system allows height adjustment for comfort. The top end of the tube ends with a semi-dry splash-guard to prevent water from entering the tube even in rough water. The angled 100% high-quality silicone mouthpiece is designed for extreme comfort even during extended use. The top snorkel has a large internal elliptical one-way purge valve at the bottom for improved drainage.

KIDS

MOON

The Moon is a small mask suitable for children. The mask is really more comfortable, compared to the traditional swim goggles, and are ideal to be used in the swimming pool even in the sea with a snorkel. The two lenses have a design that follows the natural shape of the face drastically increasing the field of view. They are made with anti-scratch and anti-fog treatment. They also protect the eyes against the dangerous UV sun rays.

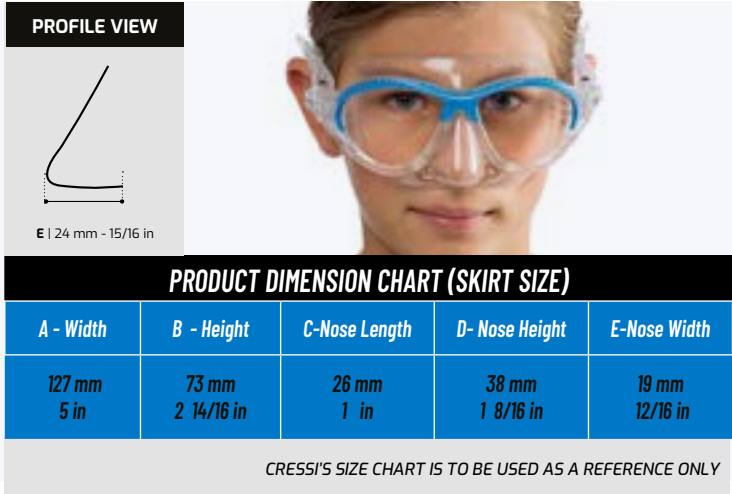

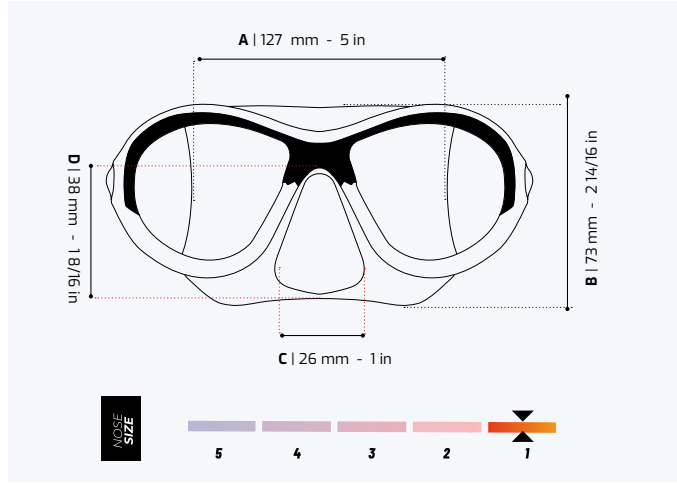

The skirt is made of hypoallergenic TPR, a soft material that ensures comfort. The front frame is made of very flexible plastic and, in combination with the TPR, the mask ensures a perfect seal and adapts to most shape faces. The nose pocket is easy-to-reach for ear equalization if the child swims below the surface of the water. The buckles are the same used in the Cressi premium scuba diving mask and allow the user to easily adjust the strap length without effort.

KIDS

MINI DRY

Version of the Supernova Dry model for kids. The Mini Dry snorkel has an original anti-splash end with a special valve that seals the tube as you dive, almost totally preventing the entrance of water as the snorkel is submerged. The lower end has a corrugated part that is smooth on the inside and keeps the snorkel away from the mouth when using a breathing apparatus. A special water collection cup, with a large elliptic discharge valve, makes expelling water quick and easy.

KIDS SWIMSUIT

1.5 MM - LONG SLEEVE

One-piece swimsuit for little children ideal for any kind of water activity. It is a must-have for the swimming pool or to go snorkeling in the sea. The wetsuit works like a second skin,

protecting against the harmful sun ray and against jellyfishes. Lightweight and easy to put on, it offers excellent freedom of movement.

KIDS

MINI COBRA

The Mini Cobra is designed for kids, for swimming and enjoying the sea. Made of silicone, a better and longer-lasting material than plastic PVC. This material is more comfortable and allows a perfect fit for most facial profiles. The mask is made with a single-piece skirt that is characterized by the presence

of an elastic element within the structure that allows a better fit than other goggles. The lenses are shatterproof and made with an Anti-Scratch, UV Protection, and internal Anti-Fog treatment.

KIDS

BALOO

The Baloo is the best seller mask in the Cressi swim line for kids, designed with extreme comfort in mind.

The mask has a flexible frame, a watertight fit, and easy adjusting buckles that make it the most comfortable and easy-to-use children's swim mask on the market today. It is perfect

for swim lessons and is the ultimate in aquatic eye protection. Because the lenses are curved, children do not feel claustrophobic. In addition, they are shatterproof, have an internal anti-fog treatment and are kid safe. The Baloo mask is the perfect solution for kids ready to experience the aquatic world.

CODE	PRODUCT
DZ300060	Buckles Clear for Swim Goggles
DZ301060	Swim Goggles Silicone Strap Clear

TECHNICAL FEATURES

- Comfortable leak proof eye gasket
- Flexible nose bridge fits various facial profiles
- Recreational, fitness and open water swimming
- 2 year warranty
- Curved lenses technology for optimum side viewing
- Lenses: Inclined 18° anti fog, anti scratch, 100% anti UV
- 100% High quality TPR

SIZE B

RIGHT

The Right goggles feature a classic round lens shape. The lenses are also slightly curved which provides excellent peripheral vision. The TPR gaskets around the lenses form a comfortable, watertight seal around the eye socket. The lenses feature external anti-scratch treatment, UV protection and internal anti-fog treatment.

NUOTO 2.0

The redesigned version of the Nuoto goggles for adults, the Nuoto 2.0 has been improved for maximum comfort. The Nuoto 2.0 are made from soft thermoplastic materials, with a high standard of quality. The shape of the two eyepieces is highly anatomical, thus ensuring an excellent watertight seal on most face shapes. The lenses are made from shatterproof material that

has anti-fog treatment and UV ray protection. The strap has a buckle for quick and easy adjustments. The Nuoto goggles have been designed to offer swimming and water sports enthusiasts a product that is of excellent quality and comfort at an affordable price.

- Anti-fog treatment and UV ray protection
- Buckles for quick and easy adjustments
- Split strap

GALILEO

THE ONLY GOGGLES WITH TEMPERED GLASS LENSES

The Galileo goggles have marked a historical turning point in the swimming goggles sector. Their flat lenses are mounted on a rigid frame, just like a diving mask, thus guaranteeing perfect vision with no distortion. The shape of the lenses, which are perfectly flat and have no side curving, also prevents annoying distortion at the sides of the lenses. The watertight seal is extraordinary and comfort

is excellent. The strap has a quick adjustment system (Cressi patented), similar to that used on the prestigious Cressi-sub masks, which allows quick and easy adjustment. The shatterproof lenses have external anti-scratch treatment, UV protection, and internal anti-fog treatment.

TECHNICAL FEATURES

- Lenses made of shatterproof tempered glass
- Flat lenses offer no distortion while underwater
- External anti-scratch coating
- Anti-fog treated
- Soft skirt ensures watertight seal and comfort
- Split strap made of hypoallergenic silicone
- Patented micrometrically quick adjustment buckle system
- Anti-UV protection

SKYLIGHT

MONO LENS TECHNOLOGY

Cressi Skylight goggles have an innovative frame, unique to Cressi. This mask uses mono-lens technology, and the lenses are manufactured with an internal anti-fog treatment, are scratch-resistant, and shatterproof. The lenses in the mirrored and tinted version block out the ultraviolet light, enabling the swimmer to make out shapes more

clearly. The innovative shape of the Skylight frame delivers a maximized peripheral view. The silicone strap provides a secure and stable fit on the face for long periods in the water. Our patented easy-adjustable buckle has made it among the very best, for many years. If you are looking for the ultimate swim mask in the market, the Cressi Skylight is the mask for you.
