BATTERY INSTALLATION

As illustrated, remove the head by unscrew it in anticlockwise way. Insert batteries as illustrated. Reverse polarity protection prevents damage arising from incorrectly inserted batteries (Img. 1)

BRIGHTNESS LEVEL/ AUTO POWER-OFF

Selection of High and Low brightness by moving the selector as illustrated. (Img. 2)

The electronic controller switch off after 3 min in high level and after 60 min in low level to preserve battery and led lifespan. The user is warned with short flashes with increasing evidence about low battery level.

IMPORTANT

Autonomy and performance could vary depending on the type of batteries.

CAUTIONS

- remove batteries in case of long-term storage
- do not point the torch directly to the eyes.
